Comment text:

Members agreed to support Little Walingfield being part of a ward with Great Walingfield, Acton and Lavenham in accordance with the Council's initial consultation response. This would make a more cohesive combination with all parishes having connections with the old airfield than the ward proposed in this round of consultations comprising Little Walingfield, Great Walingfield, Lavenham and Cockfield, which, due to the geographical features, would be very elongated and lack cohesion. In addition, if Acton was to join Long Melford to make up a neighbouring ward, the A134 would become a natural barrier between the two parishes.
