Comment text:

As Chairman of Mill Hill Neighbourhood Forum and resident of Mill Hill ward, I think that if changes are required you should pass the HA8 postcodes in Hale Ward to Edgware ward. The dividing Road between Hale and Mill Hill Wards should then be the Broadway. This would harmonise the community to people who strongly associate with living in Mill Hill. Depending on numbers across the two Wards Hale and Mill Hill, I would then include both sides of Lawrence Street in Hale rather than split Hale down the middle of Marsh Lane. If that doesn't result in a balance of electors in the 2 Wards then move Daws Lane, Hammers Lane and the properties within "Poets Corner" into Hale Ward. This split would be the most logical for administrative boundaries without splitting unnecessarily the community of Mill Hill. The name Hale is strange though so may better be named Mill Hill North and the rest of NW7 would be Mill Hill South. This avoids moving properties from Mill Hill Village or Mill Hill East into other Wards and splitting those who feel strongly associated with Mill Hill. The benefit of splitting Hale and Mill Hill ward down the middle of the Town Centre (the Broadway) which is 100 years old in 2020 is that we would then have 6 councillors caring about the future and the management of our Town Centre thus ensuring greater attention to its development as a thriving economy and attractive destination.

You should take the HA8 postcodes from Hale and move them into "Edgware" ward. You should then allocate more of the current and growing Mill Hill ward to Hale with a dividing line through the middle of the Broadway NW7 such that all of NW7 postcode can be included in the two Wards which you should rename Mill Hill North and Mill Hill South. The benefits are that 6 councillors would then be responsible for developing the Town Centre into a thriving destination and everyone of the residents who currently believe they live in Mill Hill would indeed be included in these 2 Wards thus improving community cohesion. Hale as a name is not one that is recognised and if you live in the HA8 postcodes you associate with Edgware and if you live in the NW7 postcodes of Hale you are a Millhillian. This restructuring as proposed here could be very positive in aligning the administrative boundaries with the physical area in which people actually live.
