. I would propose that that the Electoral Division RG moves in to the Botcherby Ward . The M6 motorway divides the RG Electoral ward from the Wetheral Ward. The Current Electors for each Ward are Botcherby 4422 , Wetheral 3993 .The Projected figures for 2021 are Botcherby 4700 Wetheral 5013,when the RG Ward is subtracted the figures would be Botcherby 5053 Wetheral 4660.These figures for Botcherby appear to be on the high side as the proposed buildings of the houses expected to take up to 5 years and at present have not started. The increase in numbers for the RG Division is for a new Housing Estate on the Botcherby side of the M6 motorway . In granting Planning permission for the Houses the schools catchment area is Schools in Botcherby and Harraby . The Secondary schools catchment is towards the City and Harraby. To the immediate north there is Rosehill Industrial Estate which also has facilities associated with high street premises for food and drink bank ,building Society, solicitors , commercial garages , and a Large superstore and a public house/restaurant . All these premises are on the Botcherby side of the M6 motorway. The RG division of Carlisle City Council is already in the Botcherby Ward for Cumbria County Council and therefore it would be easier to retain this position.

Brampton has close links and common interests with the villages around it; particularly Lanercost, Castle Carrock, Hallbankgate - these are all in the same school catchment and people from these villages use facilities such as doctors and shops in Brampton , so it would make sense to have them in the same political area.

Subject: Boundary review - Carlisle

To whom it may concern

As a resident of Botcherby ward I would like to make some comments before the LGBCE make any recommendations.

The ward as it is currently constituted has a definable identity and I would hope any proposals to increase the size of the ward build on what is currently there. I recommend pulling in the new housing developments on Durranhill Road into Botcherby. It is currently in Wetheral ward on Carlisle Council but Botcherby in Cumbria County Council. The scale of developments there have increased substantially over the last decade and are clearly part of the continuous urban area of Botcherby.

It appears that combining the current Botcherby City Council ward boundaries and the Cumbria County Botcherby division boundaries more or less should give the necessary numbers of electors and maintain a level of identifiable and simple to understand boundaries making for effective and convenient local government.

Yours sincerely,

Robert Currie

I have been made aware that there is a boundary review in process for Carlisle Council and the wards are going to be a lot larger than they currently are. I hope you will consider my request to enlarge the current Stanwix Urban ward outwards towards Houghton. Since I moved here myself and my neighbours are now finding themselves visiting and using the facilities in Houghton more than we do in Carlisle. The bus stop is just round the corner, and the journey takes no more than a few minutes. The farmers market that takes place in Houghton is as much as a social event for us as it is a means to get freshly grown produce. We visit the place so much we almost feel part of the community. When the farmers market is not on we use the same bus to go to the Houghton Hall Garden Centre. With the increase house building that seems to be going on all around, it is probable that within a short space of time there will be no rural

space between Houghton and Stanwix. Putting them both together seems to make sense, not just on a communal level but on a practical level to ensure the needs of both communities aren't in conflict and smoothed with what seems an inevitable joining.

Subject: Electoral Review of Carlisle City Council

Dear Sir/Madam,

Thank you for your invitation to comment on the proposals to streamline Carlisle City Council. I am writing to offer my full support for the reduction of Councillors in Carlisle from 52 to 39. I've always felt that 3 Councillors in certain wards is excessive and could be reduced to 2 without a loss of service to the public.

One request I wish to make is that this review is used as an opportunity to rename the Council. I believe it is a misnomer to continue calling it "Carlisle City Council" when the council is serving a district many times larger than the city. 20,000 residents do not live in the city and many of those (e.g. those in Brampton and Longtown and beyond) will not even need to go into the city in the course of their daily lives. The name of the council therefore needs to reflect the fact that it is serving a large rural district as well as the city itself, so that it can genuinely engage, be relevant to and be in touch with all residents. It therefore needs to be renamed "Carlisle District Council" to truly reflect where and who it is serving and so that no residents outside the city continue to feel excluded because the current name implies the council is just serving those who live in the city limits.

Yours sincerely,

Toby Harling

Looks fine. Glad to see the reduction in the numbers of councillors. It's time though to create three unitary authorities for Cumbria - North, West and South. Thank you for your work.

I believe that the number of councillors should be reduced as we are already over represented in that we have district and county councillors. Ideally we should have a unitary authority. But as a start a reduction in district councillors is welcome.

Comment text:

I lived at Dalesman Drive when the estate was built about 17 years ago. I always thought it was odd that within the space of a few hundred yards some of my neighbours were in Harraby, some Dalston and some Wetheral. When Cumbria County Council changed their boundaries a few years ago it was much better. The whole of our community was covered by one ward/division. It meant it much easier to deal with issues. Can I please ask the boundary review officers to consider replicating the County Council decision and removing these boundaries from my area for Carlisle City Council? So whatever ward you feel this area best goes into, could you please make sure it goes as one, that includes the Wetheral bit, the Dalston bit and the Harraby bit. We are one community, our focal point is the rugby club, we all share the same bus route. And to be honest, we are not Dalston or Wetheral, but clearly an urban area of Carlisle.

My house, and all the others built on the south-eastern side of Durranhill Road in the last two decades are, despite being less than 2 miles from the centre of Carlisle and definitely within the urban area of the city, part of Wetheral Ward. I do not think this is beneficial as the major part of Wetheral Ward is rural in nature and I am not certain that our needs always correspond with that rural nature. I am sometimes not sure whether councillors and election candidates know that we are in Wetheral Ward either: in 17 years of living here I have only had one election leaflet posted through my letterbox by a candidate in Wetheral Ward, whereas some candidates in the neighbouring Botcherby Ward think we are part of their electorate judging by the number of leaflets received around each local election time. The lack of comment from my local councillors about matters concerning this area also suggests that we are not being well represented due to being somewhat on the edge of the ward and part of the city proper rather than an outlying village. It is my opinion that the needs of this area would be better served by being in a more urban based ward, as is the case for the County Council where our local councillor is a very active local campaigner who knows the area well.

Dear LGBCE, I've lived in Yewdale (St Edmunds Park) since it was built. Indeed our development was green fields. We have witnessed much of the new development that has happened at The Beeches, now Brackenleigh and soon to be further new planned housing which are on the fields which back onto our street. It seems illogical that Glaramara Drive is split between Yewdale ward and Dalston Ward, with the whole of Brackenleigh and the new planned developments being in Dalston. These are urban housing developments. It would make perfect sense for the whole of that area which includes the field behind me up the new bypass to be part of the Yewdale ward, then at least our concerns and objections as residents can be addressed by the same sets of councillors and thus we share the same representatives throughout the planning, build and eventual occupation.

Dear commissioners I have seen notices that Carlisle is currently undergoing a boundary review, and we are to have less councillors and bigger wards. May I suggest that you consider linking Houghton where I live with Stanwix. We already use Stanwix for our family doctor, dentist and pharmacy. Together with most of our main shopping being done at the Morrison's and Aldi. Which are located either in or adjacent to the Stanwix ward. With the bus route passing through Stanwix, it means that we access each other's services on a regular basis. I feel both Houghton and Stanwix are a clean fit as one ward. Thanks G Young
