

Dear Sir/Madam,

At a recent meeting of representatives from Eton Community Association, we talked about commenting on the proposed Ward Boundaries as they affect Eton Town Council, which includes the current wards of Eton and Castle, and Eton Wick. Option D is of significant concern.

This is not aligned with the Eton Community nor indeed the Eton & Eton Wick Neighbourhood Plan, which is currently out for consultation with the submission version (Regulation 16). We are aware that the Eton & Eton Wick Town Council is opposed to option D too. These are reasons that give cause for concern:

- 1 The proposal seems to be based on only one of the 3 criteria to be considered, namely numbers of voters. The criteria of relevance to the community seems to have been disregarded.
- 2 Eton with Eton Wick is a self-contained community with absolutely no relationship with Datchet and Horton.
- 3 The community has just completed a Neighbourhood Plan for Eton and Eton Wick combined, and a huge amount of time, hard work and money will go to waste by attaching two new whole communities to it. Having attended the adjoining Neighbourhood Plan local consultations, my colleagues and I have good knowledge of various NPs, including Windsor 2030, Outer Windsor, Horton & Wraysbury. It is clear that our alignment with and inter-relationship with Windsor is strong. We have no such relationship with Wraysbury or Datchet.
- 4 Our two existing Ward Councillors have worked tirelessly for Eton and Eton Wick, each being responsible for one of the Wards. This system has served the community well and to change into a multi-dimensional system with several councillors looking after a conglomerate of diverse communities gives cause for concern.
- 5 In addition, we have worked closely with the borough regarding the BLP to strengthen the Windsor & Eton linkage. This is fully in place in the Tourism section, where Windsor & Eton are continuously aligned, not least based on the fact **that 2.4 Million people passed over the Windsor/Eton Bridge in the past 12 months.** This connection has been in place for very many hundreds of years. However, the link between Eton and Eton Wick (Wick, meaning “farm”) has been in place since the inception of Eton. We are two different and symbiotic communities.
- 6 Eton & Eton Wick share a Town Centre Manager and have similar connections with Windsor in other ways with RBWM. Our stations are called Windsor & Eton Riverside, in no means by coincidence.
- 7 The parish connection is as such (with no relationship to Datchet or Horton), as are the schools, town and parish facilities and even our Baldwin’s Bridge Trust, which has a constitution that supports both Eton & Eton Wick. We share a Dr’s surgery.

We understand the requirement to reduce the number of Wards but given where we are in the Borough, Eton and Eton Wick occupy a geographic island – one road in and out – and as such we believe a lot of damage will be done attempting a linkage that is un-natural and has no basis.

In fact, Eyot-ton means “island Town”, which is our derivation, with Eton Farm, being the rural part of our total community, valued by residents, businesses and College alike.

Our proposal, if the “numbers” criteria is to take precedence would be to base a solution on Eton & Eton Wick. An option would be to consider extending this south into Windsor as existing (Eton and Castle Ward) and should the numbers of voters required need to be made up to accommodate two ward members, to take in Eton End which is due north. We support the proposed name ‘Eton Ward’ for this new arrangement.

Yours faithfully,

Dr Ros C Rivaz
Chair, Eton Community Association
Deputy Chair, Eton & Eton Wick Neighbourhood Plan
