Annotation 1: The Fishery Estate

Comment text:

The Fisheries is a private estate of 113 houses bounded by the River Thames (see 1 above), the Bray Road and the Bray Ward to the South. After several years of campaigning, based on the environmental similarity of the estate to the village of Bray, and the ward area itself, we have been informed that as from the local elections in 2019, the Fisheries will become a new ward of Bray Parish Council. The current Borough Council ward to which the Fisheries currently belongs (Oldfield) is already the largest ward in RBWM, which is scheduled to grow by 40% in the next 16 years according to the BLP, thereby passing the 30% average additional electors per councillor variance trigger point in the next 3/4 years. It is our contention that by transferring the estate into the Borough ward of Bray, it would both serve to reduce this discrepancy, and rationalise the situation such that the Parish ward boundary and the Borough ward boundaries are aligned. This proposed action would also serve to ensure that the pattern of wards reflects the interests and identities of local communities in a more balanced way, as well as promoting effective local government.
