Subject: New council ward boundaries for Windsor and Maidenhead

The Review Officer (Windsor and Maidenhead)

Dear Sir or Madame,

Democracy is best served when there is clarity for the voter as well as equality in terms of voters represented.

Multimember wards, particularly when some wards have different numbers of councillors does not add to clarity or fairness.

I have a preference for single member wards, but failing that, I would prefer to have all the wards with the same number of seats.

However, as you seem to have pre-determined the that there will be 43 councillors (a prime number) you cannot, unless you change your view have the same number of seats in each ward.

David Knowles-Leak

Chairman Maidenhead Constituency Labour Party
