### **Comment text:**

I was pleased to note that Hooley had been kept together in the Boundary Commission response. This is welcomed by myself and Hooley residents. The new ward including Merstham, Netherne and Hooley makes the geographical connection between three villages that, in my view, have much in common. I would strongly prefer Woodmansterne to be kept together, and this feeling is reflected by many Woodmansterne residents. Ward names should be much more inclusive of all of the areas they represent. As an example, the ward name of Merstham (BC name) does nothing to reflect the inclusion of the villages of Netherne and Hooley. Keith Foreman
