Feature Annotations

Map Features:

Annotation 1: Please retain the original boundary line to retain integrity of an identifiable community

Comment text:

Raven Housing Trust has many homes on the Cromwell estate and works alongside the Council in managing community matters across the estate as a whole. Over the years there have been many occasions where this has been important including major incidents of anti social behaviour and criminal activity. Both the Council and Raven are committed to continuing to support this community to improve the area. The proposed new boundary in this area will split the community in two and potentially made a hard job even harder. Retaining the original boundary will help with member/housing association liaison, giving a better focus to community leadership and action planning.
