Subject: Objection to Change in Neighbourhood Boundary

Dear Sirs,

I am writing as one of the Director's of the Residents Committee / Management Company of Connaught Gardens in West Green, in which we write to protest to the changes proposed for the area.

We are separated from Langley Green by the busiest road in Crawley, have no connection to the services within that area and identify strongly with our current neighbourhood.

Speaking with fellow residents, they regularly use the services within West Green and this proposed alteration is tarnishes and removes our identify but also, links us with a neighbourhood that we are not connected nor part of.

Crawley's neighbourhoods have a long history and are an importance part of our town's history and community identify. Given that you can preserve the current boundaries of our community by maintaining Langley Green's current boundaries to the west, I'd ask that you amend your proposals to avoid running a dividing line throughout community.

Your Sincerely,

[REDACTED]
