

Bath and North East Somerset

Personal Details:

Name: Cllr Shaun Stephenson-McGall

E-mail:

Postcode:

Organisation Name: Councillor for Oldfield Ward

Comment text:

Retain the current Ward boundary between the current Oldfield Ward and Lyncombe as the Moorfields estate area becomes a single member Ward; I.e Englishcombe Lane and Englishcombe Way should be retained in the new Moorlands Ward. There is more community of interest between these houses and Moorlands than Bear Flat (Lyncombe). Use the Wells Road at the border between Widcombe and the new Oldfield Park Ward. This is a natural community dividing line between Oldfield Park and Widcombe. Create a single member Ward for the western riverside area using railway line as the boundary with the therefore two member Oldfield Park Ward. The new apartment, and student housing developments of Western Riverside are not Oldfield Park look towards the river and the city centre not terraced housing of Oldfield Park and Moorland Rd Shopping District. Ensure the proposed housing development to the rear of Englishcombe Lane is added to the new Moorlands Ward rather than Odd Down Ward. This new Development will only be accessed from Englishcombe Lane; and if not changes will not be a natural community with Odd Down Ward. Englishcombe Lane is a natural boundary between Southdown and Odd Down wards. There is no community link between the villages of Kelston and North Stoke (Rural) and Newbridge (Urban) and thus should be returned to Bathavon North.
