Comment text:

Camerton Parish Council disagrees with the proposal to move us into Radstock ward. The parish council believe that our needs have a better match (in terms of our interests and issues) with the other rural parishes that form part of the Bathavon South Ward. We feel that putting this rural parish in with the more urban Radstock is not a good fit. The interests of our parishioners would be better served by a ward councillor who is responsible for a group of rural parishes that on the whole have similar problems and issues. Therefore the parish council feel that moving us into the Bathavon South ward would be a much better way of us serving our parishioners.
