**Organisation Name:**

### Comment text:

As a resident of Chilwell East ward in Broxtowe, I feel that joining Chilwell East and Attenborough should be reconsidered. Attenborough village is certainly a distinct locality and probably should retain its separate identity, particularly from Chilwell East which is very much more a part of Beeston with regard to shopping, employment and identity. I suspect that many residents of Attenborough would be very keen to retain their independent identity within the ward structure and I would support this too. If some merging is needed then perhaps Chilwell West could be split between Chilwell East and Toton & Chilwell Meadows; with possibly some adjustment of the Beeston ward boundaries too to help even up the resident populations? I certainly believe that Attenborough has an identity as a separate village that warrants preserving in this structure if at all possible; and that the Chilwell wards should be tinkered with in preference. If Attenborough needs to be reduced in size to be kept with the representation it currently has then might this be able to be done around the Chilwell Retail Park?
