Comment text:

I agree that individual wards should be approximately the same size so that representation is fair, I also agree that 55 councillors is the correct amount. I am not happy that the Little Hill Estate in Wigston Bushloe is proposed to be split down the middle, this is one of the older estates in Wigston and is recognised as a local community. The present 2 member ward in Oadby should be retained, the last review recognised that this was the most sensible and practical solution and the reasons then are as valid as they are now. The only reason that the Conservatives (not officers) want Oadby to be single member wards is political, their proposal is simply to make one of the proposed wards winnable at the 2017 election - this would be a totally unacceptable reason to make the change.
