Comment text:

SCDC very carefully considered all the issues , and as we said in our response: The district of South Cambridgeshire is very large and rural and each of its many parishes has a very clear and distinct sense of community. The Council has decided to try and aim for single member wards where possible, and not to allocate small villages in the same ward with very large ones. Preserving this sense of community is considered as important as balancing electoral equality. For this reason we very reluctantly agreed to `all-out' elections. I am therefore saddened that you rejected many of our single-member ward proposals; given the uncertainty over projected growth a focus on the possible variance seems to be a very inadequate tool to push through unwelcome changes. I urge you to reconsider and accept our original proposal. Cllr Dr Douglas de Lacey, SCDC Member for Girton.
