**Subject:** Electoral Review Peterborough

William Morrison  
Review Officer (Peterborough)  
Local Government Boundary Commission of England

Dear William,

On behalf of the Cambridgeshire and Peterborough Association of Local Councils can I request that as part of the Electoral Review of Peterborough that the current government initiative on parishing urban areas be considered as a factor in the new electoral arrangements for Peterborough City.

Peterborough City Council has expressed its willingness to parish the urban areas in the city and is currently working with the Cambridgeshire and Peterborough Association of Local Councils towards delivering on this government initiative.

If it is possible to consider a logical allocation of city councillor seats in relation to the emerging urban parishes this would have the potential to improve administration, communication and community cohesion.

Thank you in anticipation.

Yours sincerely

Ian Dewar
