I support the position by the LG Boundary commission. I have one concern and that is the names given to the Hinckley EDs, which I do not agree. Although I have been a County Councillor for several years I still have no idea which part of Hinckley they represent and would suggest that most people working for the County Council would have to look it up - every time! May I suggest they are named with compass points like every other market town in the county with more than one ED. this would be Hinckley East, Hinckley West and St Mary's perhaps is Hinckley Central rather than South.
