21 November 2014

Dear ██████████,

Our ref: 15/14

Thank you for your email of 3 November, requesting information under the Freedom of Information Act 2000.

You have requested:

“... a copy of the 2014-17 work programme referred to in Item 12 in the minutes of the Commission's meeting on 19th August”.

The Commission does hold information relevant to your request. Please find attached copies of the information you have requested.

If you have any further queries, please do not hesitate to contact me, quoting the reference number above in any correspondence.

If you wish to request a review of our decision, you should write to me at:

Sarah Vallotton
Business & Committee Services Manager
Local Boundary Commission for England
Layden House
76-86 Turnmill Street
London
EC1M 5LG

If you are not content with the outcome of your complaint or review, you may apply directly to the Information Commissioner for a decision. Details of this procedure can be found on the ICO website: <http://www.ico.gov.uk>.

Generally, the ICO cannot make a decision unless you have exhausted the complaints procedure provided by the Local Government Boundary Commission for England.

Yours sincerely,

Sarah Vallotton
Business & Committee Services Manager
020 7664 8522
Sarah.vallotton@lgbce.org.uk

LGBCE (14)103 - APPENDIX B: Responses from local authorities to FER investigations

| | Electorate 2014 | Number of EDs over 30% | Positive variance | Negative variance | Number of EDs over 10% | % of EDs over 10% | Qualified for review 2013 | Electorate 2013 | Number of EDs over 30% | Number of EDs over 10% | % of EDs over 10% | Election to Implement | Response |
|----------------------------|-----------------|------------------------|-------------------|-------------------|------------------------|-------------------|---------------------------|-----------------|------------------------|------------------------|-------------------|-----------------------|--|
| Cambridgeshire | | | | | | | | | | | | | |
| Huntingdonshire | 130195 | 1 | 33.47 | -26.68 | 8 | 27.59 | NO | 125370 | 8 | | | 2016 / 2018 | As well as one ward over 30%, 28% of the wards have an imbalance of 10% or more, and these imbalances are unlikely to be rectified in the near future. With this in mind the District Council considers that a review of electoral arrangements is justified. |
| South Cambridgeshire | 114228 | 1 | 32.49 | -22.11 | 6 | 17.65 | NO | 112259 | 5 | | | 2016 / 2018 | Variance in the ward identified is unlikely to reduce over time and in the short term is likely to increase |
| Cumbria | | | | | | | | | | | | | |
| Allerdale | 69024 | | 21.25 | -21.33 | 11 | 35.48 | NO | 74917 | 7 | | | 2019 | The Council does not consider the imbalance will be corrected by foreseeable changes to the electorate |
| South Lakeland | 80782 | | 16.29 | -16.04 | 15 | 33.33 | NO | 84052 | 7 | | | 2016 / 2018 | There are a number of housing developments due to begin in the next couple of years; this, combined with a settling-in period for Individual Electoral Registration, leads the Council to state that "it is strongly considered that it would be premature to undertake a Further Electoral Review at this time". |
| Derbyshire | | | | | | | | | | | | | |
| Bolsover | 58259 | 1 | 24.83 | -33.14 | 5 | 25 | NO | 57345 | 5 | | | 2019 | As the Local Plan Strategy has been withdrawn there is no agreed allocation policy for the forthcoming years. There is one ward has over 30% variance with no planned development. |
| Devon | | | | | | | | | | | | | |
| East Devon | 97680 | | 23.79 | -17.87 | 10 | 31.25 | NO | 103696 | 9 | | | 2019 | No response received |
| Exeter | 91779 | | 19.31 | -15.13 | 7 | 38.89 | YES | 90041 | 6 | 33.33 | | 2016 / 2018 | The current imbalances in the City's wards may not be rectified by future housing developments – in fact, they, plus other potential imbalances which may be thrown up by the Individual Electoral Registration process, may actually worsen this situation. The Council are mindful to willingly undertake an electoral review of the City's wards, and also the number of councillors who represent the City, with a view to any new boundaries and proposals being effective from 2018. |
| Teignbridge | 104049 | | 18.3 | -14.59 | 8 | 32 | NO | 103381 | 5 | | | 2019 | Asks that any review be postponed until after completion of CGR which will commence after May 2015 and Devon County Council review. They plan to commence their programme of CGRs in 2016 - 2017. |
| Torridge | 52019 | 1 | 30.87 | -18.27 | 9 | 39.13 | YES | 52173 | 1 | 10 | 43.48 | 2019 | Considers the extent to which the authority meets the criteria is marginal. Asks that in any review programming, the busy elections workload over the next year be taken into account. Notes the relatively small number of officers at the authority and expresses concern at their capacity to cope with elections administration and an electoral review. |
| East Sussex | | | | | | | | | | | | | |
| East Sussex County Council | 399518 | | 21.34 | -12.59 | 15 | 30.61 | NO | 408330 | 9 | | | 2017 | Argues that will not meet the criteria by 2017 due to developments. The authority requests that any review be postponed until after local plans have justified sites for housing and adopted house allocation plans. Looks forward to meeting in September to discuss the issues collectively. |
| Wealden | 118560 | 1 | 30.29 | -12.06 | 9 | 25.71 | NO | 119810 | 6 | | | 2019 | Accepts that it is difficult to say for certain the likely changes in electorate over the next few years and accept that the Council meets the intervention criteria. However, this combined with the number of elections in the next 2 - 3 years will place a considerable burden on their relatively small number of officers. An electoral review is likely to exacerbate this. In light of this, the Council suggests that any review should start no earlier than summer 2016 in order that they maybe implemented in 2019. |
| Hastings | 61181 | | 16 | -16.84 | 6 | 37.5 | NO | 64973 | 3 | | | 2016 / 2018 | Council asks that a formal review is not considered at this time. Due to the transient nature of the authority's demographic, there is constant fluctuation of numbers of electors moving into and out of the borough. The introduction of Individual Electoral Registration (IER) is likely to have an impact on our electorate, but this will not become clear until December 2015, once IER takes full effect. |
| Hampshire | | | | | | | | | | | | | |

| | | | | | | | | | | | | | |
|-------------------------------|-----------------|------------------------|-------------------|-------------------|------------------------|-------------------|---------------------------|-----------------|------------------------|------------------------|-------------------|-------------|--|
| Hampshire County Council | 1040056 | | 18.76 | -16.33 | 25 | 32.05 | YES | 1032353 | | 24 | 32 | 2017 | Considers that current and proposed developments will significantly affect variances and that any review should not take place prior to elections to the authority in 2017 |
| East Hampshire | 88580 | | 25.09 | -18.43 | 16 | 42.11 | NO | 90649 | | 11 | | 2019 | The current imbalances are likely to continue |
| Eastleigh | 98990 | 1 | 30.58 | -14.44 | 4 | 21.05 | NO | 97817 | | 4 | | 2016 / 2018 | No response received |
| Hertfordshire | | | | | | | | | | | | | |
| Hertsmere | 78747 | | 22.59 | -14.31 | 5 | 33.33 | NO | 75954 | | 4 | | 2016 / 2018 | The current boundaries have proved manageable and there is no record of complaints or demands to change them. Core Strategy has contingency for up to 790 units but proposals for new dwellings will not start development for 2-3 years. Currently awaiting comments from Council Leader and Leader of Opposition. |
| Watford | 71293 | | 13.54 | -18.69 | 4 | 33.33 | NO | 69579 | | 2 | | 2016 / 2018 | The imbalances are likely to continue. If the Commission is minded to conduct a review, the Council would prefer it to be at the back end of your programme given the significant pressures generated by IER and the forthcoming general election. |
| Welwyn Hatfield | 81679 | | 28.55 | -13.75 | 7 | 41.18 | NO | 81011 | | 5 | | 2016 / 2018 | it is unlikely that the current electoral imbalances would be corrected through changes in the number and distribution of electors within the next 3 years |
| Lancashire | | | | | | | | | | | | | |
| Lancashire County Council | 904194 | | 29.46 | -22.43 | 30 | 35.71 | NO | 906973 | | 25 | | 2017 | Considers that the impact of IER as well as future developments in the county will affect variances and that a review should not take place at this time |
| Preston | 100200 | | 15.3 | -21.27 | 7 | 31.82 | YES | 100522 | | 7 | 31.82 | 2016 / 2018 | Given the introduction of IER, suggests that a review would be of limited value prior to the canvass in December 2015 when a better idea of differentials in registration rates will be apparent. |
| Ribble Valley | 46456 | 1 | 31.78 | -18.17 | 6 | 25 | NO | 46128 | | 3 | | 2019 | The electoral imbalances identified are not likely to be corrected within the next three years. The imbalances are likely to continue due to the amount of development and the location of these developments. For example, in one ward, it is estimated that the variance could grow from 30% from the average to over 60%. A review is likely to be necessary. |
| Leicestershire | | | | | | | | | | | | | |
| Leicestershire County Council | 522532 | | 22.66 | -19.37 | 17 | 30.91 | NO | 521129 | | 13 | | 2017 | LibDemGroup - no objection to the current data and, if the criteria are met, agree that there should be a boundary review to equalise the electoral divisions. Chief Executive notes that electoral imbalances will increase and a review would be an opportunity to re-establish a measure of coterminosity with wards in NW Leicestershire in particular |
| Kent | | | | | | | | | | | | | |
| Ashford | 91341 | | 26.55 | -13.23 | 14 | 40 | YES | 90936 | | 12 | 34.29 | 2019 | Keen to work with LGBCE to plan for future changes - Sarah Hartles, who is involved with related projects, will be in contact shortly for guidance on potential timescales. No evidence electoral variance will be corrected in near future; 5750 homes to be built in next 25 years) |
| North Yorkshire | | | | | | | | | | | | | |
| Harrogate | 120291 | | 16.43 | -13.15 | 11 | 31.43 | NO | 121033 | | 9 | | 2016 / 2018 | 11 of 35 wards have a variance in excess of 10% so "in principle we meet one of the conditions set out in your letter for a review". However, the -12.05% variance for Knaresborough East will be redressed by the building of 500 homes in the near future. |
| Suffolk | | | | | | | | | | | | | |
| Mid Suffolk | 77473 | 1 | 30.41 | -13.89 | 9 | 30 | NO | 77310 | | 9 | | 2019 | Council currently conducting a Community Governance Review (due for completion in late 2014). The Council may be minded to ask for the remit of a review to be broadened, with a view to reducing the number of councillors - requested more information on timescales. |
| West Sussex | | | | | | | | | | | | | |
| West Sussex County Council | 621949 | | 22.29 | -25.22 | 23 | 32.39 | NO | 626434 | | 18 | | 2017 | Acknowledges variances but does not feel an electoral review would be appropriate at this time. |
| Horsham | 101018 | | 27.26 | -12.8 | 7 | 31.82 | NO | 103481 | | 4 | | 2019 | No response received |
| Unitary Authorities | Electorate 2014 | Number of EDs over 30% | Positive variance | Negative variance | Number of EDs over 10% | % of EDs over 10% | Qualified for review 2013 | Electorate 2013 | Number of EDs over 30% | Number of EDs over 10% | % of EDs over 10% | | |

| | | | | | | | | | | | | | |
|---------------------|-----------------|------------------------|-------------------|-------------------|------------------------|-------------------|---------------------------|-----------------|------------------------|------------------------|-------------------|-------------|---|
| Cornwall | 409639 | 4 | 32.61 | -60.36 | 39 | 31.97 | YES | 422912 | 3 | 37 | 30.08 | 2017 | Requested extension to properly consider views - 01/07/14. Granted. No response received as of 04/07/2014 |
| Isle of Wight | 113168 | | 18.49 | -16.86 | 15 | 38.46 | YES | 112388 | | 14 | 35.9 | 2017 | IoW suggest that it may be appropriate to delay any review until after their next local gov elections in 2017, due to their "fairly recent electoral review", and the fact that, although 12 divisions vary by more than 10%, some of these variations are very small. |
| Kingston upon Hull | 191497 | 1 | 30.31 | -15.59 | 5 | 21.74 | NO | 189976 | | 4 | | 2016 / 2018 | Electoral imbalance is likely to continue or increase. An independent Commission of Inquiry is due to report on the issue of the authorities external boundaries in early 2015. If a review is to be considered in the 2014-16 programme, then it may be useful to wait for the Commission's of enquiry's findings to be presented first. |
| Redcar & Cleveland | 104542 | 1 | 13.43 | -13.32 | 10 | 31.82 | NO | 106120 | | 7 | 31.82 | 2019 | Suggests review delayed until implications of IER are clearer post December 2015 |
| Rutland | 29264 | | 24.51 | -17.85 | 5 | 31.25 | NO | 29000 | | 4 | | 2019 | 25% of wards exceed the 10% variance. It is not expected that the electoral imbalance will continue permanently over the next three years. Some large residential development is expected but changes to the electorate would not be realised for a number of years - it may be more suitable for Rutland to be considered in any scheduling after 2016. Notes that only small movements in electorate push the authority in and out of the criteria. |
| Warrington | 162786 | | 22.3 | -18.38 | 9 | 40.91 | NO | 158926 | | 6 | | 2016 / 2018 | it is unlikely that any perceived electoral imbalances would be corrected through changes in the number and distribution of electors within the next 3 years |
| Shropshire | 225449 | | 19.04 | -27.77 | 20 | 31.75 | NO | 237000 | | 16 | | 2017 | No response received |
| Wiltshire | 357240 | 1 | 34.79 | -17.59 | 25 | 25.51 | YES | 356678 | 1 | 23 | 23.47 | 2017 | 41 divisions could exceed 10% tolerance in five years' time. A CGR of some towns and outlying areas has just begun and Wiltshire are interested in dovetailing this with the work of the LGBCE if possible. |
| Mets | Electorate 2014 | Number of EDs over 30% | Positive variance | Negative variance | Number of EDs over 10% | % of EDs over 10% | Qualified for review 2013 | Electorate 2013 | Number of EDs over 30% | Number of EDs over 10% | % of EDs over 10% | | |
| Leeds | 537163 | 1 | 25.93 | -35.33 | 7 | 21.21 | NO | 561340 | | 3 | | 2016 / 2018 | The Authority is about to undertake a site allocations process for 70,000 new homes across every ward in the City in the next six months and that there is a risk that the trends in some wards would be affected by this work. |
| Manchester | 380930 | 1 | 30.59 | -11.57 | 9 | 28.13 | YES | 372688 | 1 | 7 | 21.88 | 2016 / 2018 | Acknowledges that variances exist in one ward. Notes that no matters of concern have been raised locally about the ability of members representing the said ward to effectively represent their constituents or discharge their duties as elected members. Considers that the impact of IER will make a review commencing before the completion of the canvass in December 2015 will be of limited value. Suggests that the situation will be clearer after this point in terms of registration rates and therefore, the need for a review. |
| Newcastle Upon Tyne | 201806 | 1 | 33.82 | -11.87 | 5 | 19.23 | NO | 204936 | | 4 | | 2016 / 2018 | Following the introduction of Individual Electoral Registration (IER), block registration will no longer be an option - the effect of IER on Wards that have a high student population is yet to be established. It "would seem prudent" therefore to postpone an electoral review until the effects of IER on registered electors and students in particular has been determined. |
| London Boroughs | Electorate 2014 | Number of EDs over 30% | Positive variance | Negative variance | Number of EDs over 10% | % of EDs over 10% | Qualified for review 2013 | Electorate 2013 | Number of EDs over 30% | Number of EDs over 10% | % of EDs over 10% | | |
| Southwark | 206857 | | 22.88 | -17.88 | 9 | 42.86 | NO | 203514 | | 6 | | 2018 | No response received |

LGBCE (14)103 - Appendix D: Corporate Plan commitments

Indicative review programme 2013-14 to 2018-19

| | 13/14 | 14/15 | 15/16 | 16/17 | 17/18 | 18/19 |
|--|-------|-------|-------|-------|-------|-------|
| Electoral reviews of areas with significant levels of electoral inequality, planned for completion | 11 | 18 | 19 | 17 | 17 | 17 |
| Electoral reviews requested by local authorities, planned for completion | 6 | 8 | 6 | 5 | 5 | 5 |
| Electoral reviews that have both been requested and have significant levels of electoral inequality, planned for completion | 5 | 3 | 1 | 2 | 2 | 2 |
| Total electoral reviews planned for completion | 22 | 29 | 26 | 24 | 24 | 24 |

| Impact on level of electoral inequality over time: ¹ | 13/14 | 14/15 | 15/16 | 16/17 | 17/18 | 18/19 |
|---|-------|-------|-------|-------|-------|-------|
| No. of local authorities | 352 | 352 | 352 | 352 | 352 | 352 |
| No. with electoral inequality at start of year | 69 | 63 | 52 | 42 | 33 | 24 |
| Add new cases of inequality (projected from the average of last 5 years) | 10 | 10 | 10 | 10 | 10 | 10 |
| Deduct cases of electoral inequality resolved - reviews planned for completion | 16 | 21 | 20 | 19 | 19 | 19 |
| Authorities with electoral inequality at end of year | 63 | 52 | 42 | 33 | 24 | 15 |
| Authorities with electoral inequality at end of year, as a percentage | 18% | 15% | 12% | 9% | 7% | 4% |

¹ The introduction of Individual Electoral Registration is likely to have a considerable but unascertainable impact on the electoral register of every local authority in England, and thus to affect how many authorities fall outside the Commission's thresholds of electoral inequality, so requiring attention. The impact is too uncertain for this table to take account of it.
