**Organisation Name:**

### Comment text:

I really feel that the Newtown Ward should be abolished. No one knows about it. No one can relate to it. No one knows who their councillor is. No one know exactly what it's there for nor even what they do. I have never seen nor heard about anything Newtown councillor have done. The only thing I have heard about Newtown are the crime rate statistics uploaded monthly on the police website. For the last three years it appears it is a haven for petty crimes with no improvement at all. I live in the Q Park Development [REDACTED]

and many of us were extremely disappointed we could not vote in Stone despite paying towards Stone Parish Council. It is so unfair and frankly illogical. If I have to remain in Newtown Ward (I really hope I don't have to as I have fallen in love with the parish of Stone) then I should not have to pay Stone Parish Council. As for the map above, I cannot work out how to draw on it nor how to use it. Many of my neighbours who are not of the digital generation have no idea about this consultation nor do they have access to a computer / the Internet to make their feelings known.
