The Rt. Hon. Tom King
Secretary of State for the Environment

1. As a consequence of suggestions which had arisen in the course of the review of their internal parish boundaries, the Boothferry Borough Council, in the non-metropolitan county of Humberside, asked us to carry out a review of parts of their district's boundaries with the District of Beverley (also in Humberside) and with the District of Selby (in the non-metropolitan county of North Yorkshire). The Borough Council sought the following changes:

(i) the transfer to the parish of Broomfleet in Boothferry of part of the parish of South Cave in Beverley district:

(ii) the transfer of part of the parish of Pollington in Boothferry to the parish of Balne in Selby division.

2. Having obtained the views of all the interested local authorities we considered the Council's requests, as required by Section 48(4) of the Local Government Act 1972. In doing so, we had regard to the guidelines contained in the Department of the Environment Circular 33/78 and to our own Report No. 287.

3. We noted that the changes were minor, involved very small areas of land and affected a total of two residents. We also noted that with the exception of Humberside County Council, who wished to see no change, the changes were supported by all the local authorities involved. We concluded that the suggestions met the criteria set out in paragraph 14 of Department of the Environment Circular No. 33/78. Humberside County Council had supplied no reasons to support their view and we considered that their opposition, on its own, was insufficient to justify the rejection or deferment of Boothferry Borough Council's requests.

4. Accordingly we decided that we should undertake a review and that the circumstances were sufficiently exceptional to enable us to shorten our normal procedure by publishing our draft proposals, based upon the Council's suggestions, at the same time as we announced our intention to carry out a review.

5. On 23 August 1982 we issued a consultation letter announcing the start of the review and giving details of our draft proposals. The letter was addressed to Boothferry Borough Council, Beverley District Council and Selby District Council, whilst copies were sent to Humberside and North Yorkshire County Councils, Balne, Broomfleet, Pollington and South Cave Parish Councils, the Members of Parliament for the constituencies concerned, the headquarters of the main political parties and to the editors of the local government press. The start of the review and publication of our draft proposals was also advertised by public notice in the three districts and by

announcements which appeared in the local press. The three district councils to whom the letter was addressed were asked to deposit copies of the draft proposals at their main offices for inspection for a period of six weeks. Comments on the review and on the draft proposals were invited by 26 October 1982.

RESPONSE TO THE DRAFT PROPOSALS

6. We received replies from the North Yorkshire County Council, from Dr Edmund Marshall MP, from Boothferry Borough Council, from Pollington and South Cave Parish Councils, all of which had no objection to the draft proposals. Haltemprice and Beverley Conservative Association acknowledged receipt of the draft proposals but did not make any comments. No replies were received from Beverley Borough Council, Selby District Council, Balne Parish Council or Broomfleet Parish Council but they had already indicated that they had no objections to the alterations prior to our publication of draft proposals. No further observations were received from Humberside County Council to support their contention that there should be no alteration in the boundaries.

7. We are satisfied that in the interests of effective and convenient local government the boundary between the Borough of Boothferry and the Districts of Beverley and Selby should be re-aligned as indicated in our draft proposals. We therefore confirm these as our final proposals.

8. Details of these final proposals are set out in Schedules 1 - 3 to this report. Schedule 1 specifies the the proposed changes in local authority areas; the proposed boundary is illustrated on the attached map. Schedules 2 and 3 specify the consequential adjustments to the existing electoral arrangements.

PUBLICATION OF THIS REPORT

9. A letter is being sent together with copies of this report and accompanying map to the three district councils asking them to place copies of this report on deposit for inspection at their main offices and to put notices to this effect on public notice boards and in the local press. The text of the notices will refer to your power to make an Order implementing the proposals, if you think fit, after the expiry of six weeks from the date they are submitted to you; it will suggest that any comments on the proposals should therefore be addressed to you, in writing, preferably within six weeks of the date of the letter. Copies of this report which includes small sketch plans are being sent to the Humberside and North Yorkshire County Councils (with a copy of

the map) and to the other bodies and persons who received the consultation letter or commented on our draft proposals (without a copy of the map).
