**Organisation Name:**

### Comment text:

The civil parish of Helsington, which includes Brigsteer, should be in the Lyth Valley ward, for the following reasons. (1) It has much more in common with the other small village communities of the Lyth Valley than it does with Levens. (2) The Ecclesiastical parish of Helsington has recently joined together with the parish of Underbarrow to form the new ecclesiastical parish of Underbarrow with Helsington. (3) Brigsteer and much of Helsington will shortly become part of the Lake District National Park, strengthening its links with the northern part of the Lyth Valley and weakening those with Levens. (4) Under SLDC development plans, extensive housing development is planned in Levens; the consequent increase in the population there would more than balance the transfer of Helsington and Brigsteer to Lyth valley ward.
