### Feature Annotations

### Map Features:

Annotation 1: Green space

### Comment text:

I have lived in Moss Side for 40 years and we have had our fair share of issues however, I and the community have been proud to have an award winning Art gallery and park in Moss Side. The proposed boundary change to put the park and art gallery in Ardwick is outright wrong as there are no resident who live within the park, it wouldnt make any impact by moving it to Ardwick ward however, it would have huge community impact by taking it out of Moss Side. May i add this is the only green space/ park we have within Moss Side ward. Ive spoken to a few neighbours about this and they've asked me to pass on their concerns about moving the only green space into another ward. They said having a great park is an asset to the people who live here, we the residents of Moss Side take pride in this park and it gives us the sense of Belonging. We urge you to reconsider this proposal and to leave the park area in Moss Side.
