Organisation Name: Neighborhood watch co-ordinator

Comment text:

The area that Broxtowe covers,justifies the need for the 44 councilors, which is dearly in the interests of the large numbers of voters in the Broxtowe area,for their fair and effective operation and distribution of the funds available. I believe altering the boundaries would create an unfair voting advantage to the benefit of certain parties. As to the encroachment into Beeston, Chilwell and Stapleford by the City, I believe, would be detrimental and a disadvantage to the present Broxtowe voters in this area. I believe also an ulterior motive is involved by the way of further funding for the Tram Network.i.e Company Employees Parking costs and a rise in local council car parks in line with the City.I have spoken to a number of local people and they all are of much the same mind.
