Comment text:

I am a Parish Councillor for Yelverton which will become part of the Brooke Ward. I have no desire to be part of this ward and because of historic issues we will be part of a ward where we are often at odds with other Parish Councils who have totally different views to us. At the present time and in the past we have had a district councillor who lives locally and understands the issues of this village. If we are moved we have a councillor whose views will not reflect ours. It also fails to see the point of changing wards and not reducing the number of councillors.
