We are suffering from voter apathy as it is and if an area becomes too large ie Romney Marsh, you will lose more interest from the electorate. I suggest to keep identities of local communities we return to one ward for Dymchurch and Burmarsh = one councillor and one for St Mary's Bay, St Mary-in-the-Marsh, and Newchurch= one councillor. While the District Council continues to run with the Cabinet System I can see there is a case to reduce councillor numbers, if it should return to the committee system then the reduction would not work.
