### Comment text:

I am concerned at plans to merge the Attenborough and Chilwell East wards. Attenborough is a historic village with a distinct identity, and this character should be respected in any boundary changes. I am therefore against the proposed changes. I would however welcome debate over the exact extent of Attenborough village, so as to achieve more equal electoral representation. The proposal to move a small number of streets into Beeston West ward is positive, and I am of the opinion that the houses towards the northeast end of Long Lane may be considered part of Chilwell. On the other hand, some streets close to but outside the existing boundary of Attenborough ward near to Attenborough Lane are sometimes considered to be part of the village, the Nottingham Road being a rather arbitrary boundary, while the inclusion of the business and retail parks in the western part of the existing ward seems irrelevant to the identity of the village. I make these remarks as a resident of Attenborough for most of the past 30 years.
