Comment text:

I think that Shepreth should be linked in with Foxton and Fowlmere for voting. Shepreth has close links with these villages as we share parrochial services with these villages. In recent years local District Councillor and County Councillor seem to always represent Meldreth and Melbourn with local planning issues and when Shepreth has any planning neither of them commit to representing Shepreth residents needs, infact if an issue affects Meldreth as well as Shepreth then they always try and get the better deal for Meldreth leaving Shepreth with the fallout. I feel we as a community would benefit much more going in with Foxton and Fowlmere. Our links with these two villages are far more stronger than with Meldreth and Melbourn.
