

Dear Sir,

Submission on electoral ward boundaries in Peterborough City Council

I am writing to make a submission in my personal capacity as ward member for the North ward of Peterborough City Council. I have noted the proposed submission by the Peterborough City Council but would like to suggest an alteration.

I want to make a submission regarding the north west boundary of the proposed new Park ward, regarding that small part of North Ward which was previously in Park before this re-organisation. Allen Road 95% in Park, just leaving a few on the left hand side of the road in the proposed new North Ward. 99% of the houses on right hand side of St Pauls Road from Lincoln Road are in Park ward and 99% of properties in Lincoln Road are in Park.

The area in Alexander Road, Allen Road, Gilpin Street and Rock Road stand out like a sore thumb which is confusing to the electorate and it makes sense to tidy it up. My proposal is that the ward boundary line of Park should be drawn around these roads along the Lincoln Road to the west.

I believe that this proposal aligns the community better within the Park ward.

Councillor Swift
North Ward Councillor for Peterborough City Council
