### Comment text:

I strongly object to the proposal to include Sandyhurst Lane in the proposed new Ward to be called Trinity. Sandyhurst Lane is a natural boundary to the the development of the Town and is best served by remaining in the Downs West Ward. Including the West side of the Lane in this new Ward will only encourage developers to apply to build on this area and push further into the countryside. Ashford Borough Council has allocated more than sufficient land to be developed in the Boroughs area to meet demands well into the future, but these areas are not always where developers can make the most profit and will always push to build in the most beautiful parts. The proposed Trinity Ward is already heavily developed and the pressure will be applied to push this development out to the new proposed West boundary. Sandyhurst Lane Residents Association has proposed a change to the West Boundary of this new Trinity Ward which will keep Sandyhurst Lane within the Downs West Ward, I strongly support this amendment.
