

Terry Mullard

Shepway District Council

District/County councillor

15/03/2013 14:05

At present there are 3 District bCouncillors representing Dymchurch & St Mary's Bay with a total of 5316 electors (ie 1772 per Councillor). The proposal now is that 2 District Councillors are expected to represent 6276 electors (3138 per Councillor). The new area is far larger than before as it now includes Burmarsh and Newchurch. It is also of considerable note that the proposed Romney Marsh East and the Walland & Denge Marsh wards are vast geographical areas. Just how on earth are 2 Councillors expected to represent each of these 2 huge wards? Quite daft!
