Since we bought our house in trowell 20 odd years ago, we have had excellent service from our elected representative, Trowell is a reasonably large village with a good mix of dwellings, both old and new, currently we are under threat from open cast proposals and housebuilding proposals, where both of them will have very dramatic effects on our lives and well being if allowed to occur, merging the ward with Awsworth would dramatically limit the support currently given by our elected person, in my opinion such a move would be very detrimental to all current trowell residents whether young old or children.
