I propose redrawing Sheldon ward’s north-western boundary along a line which approximately connects flags 1 to 18, to exclude Herondale Road, Saxondale Avenue, Sunnymead Road, Manor House Lane, Ollerton Road, Elmcroft Road, Orchard Rise, Moat Lane and Rowlands Road, most of whose residents consider that they live in South Yardley (not Sheldon), and to include Bilton Grange Road, Charlbury Crescent, Cockshut Hill, Averill Road, Milstead Road, all of Sheldon Heath.
Road and Garrets Green Lane, most of whose residents consider that they live in Sheldon (not Yardley North). Along with all the other roads contained within the new extended boundary, this addition (less the reduction) will increase the size of the ward to justify its retention as a 3-member ward which matches exactly the natural community of Sheldon as it is generally understood to be. This is a personal submission, which my colleagues and party may choose to support or not support as the case may be.
