Comment text:

I am not sure that I fully appreciate the proposals but would like to ask how the Current Neighbourhood Planning Process which is nearing completion for the current Nuthurst Parish...and should be ratified in September ..is impacted by any proposals. We have spent coming up for 3 years to produce the plan which lasts until 2031 and any change which would render this Plan obsolete would be sure to create a major issue in a our Parish and Community and I think would be pretty unacceptable. I assume that the Neighbourhood Planning Process would not be impacted in any way and that the plans for Nuthurst would still endure until 2031.
