Comment text:

I am concerned at the proposed boundaries in the streets surrounding Towers View and Goteley Mere. The proposal results in some 212 houses in this area being included in Goat Lees ward. The effect of this, however, is to create a small ward within the planned Kennington Community Council (due to be implemented in May 2019). The new parish ward will be dwarfed by the other wards in the Community Council, and it could prove difficult to find residents willing to stand for the Community Council. This effectively weakens their democratic representation. It would be more equitable if these streets were to be included in Kennington Ward, with the boundary between Kennington and Goat Lees wards following the current Urban boundary/Boughton Aluph Parish boundary.
