SYSTEMS

"Training re-enforced on-line learning. Trainer showed great patience and offered support throughout the day. A difficult process made a lot easier."

- Paul, Sunderland City Council

We deliver classroom training to over 10000 delegates each year

We work on around 30 Local Authority classroom training projects each year

We obtain, on average, a 98.5% user satisfaction rating

Many of our customers come back to us for ad-hoc projects or to help with their long-term training strategy

We offer tailor made solutions to fit your organisation perfectly

...from managing your training project during a full system implementation or upgrade

...to supplying experienced trainers to deliver sessions

...to becoming a part of your ongoing training strategy for new starters

We'll work with you to create a package that suits your objectives and budget.

"Thanks for all your help – I am starting to get the hang of the system now! The training this week with David was really good – and he went over and above in staying late with me to hand hold as I tried to resolve some of the outstanding items in my tray. I learnt so much on Tuesday and my confidence with the system has increased three fold."

**–
Laura, Hull City Council**

Me Learning can save you time

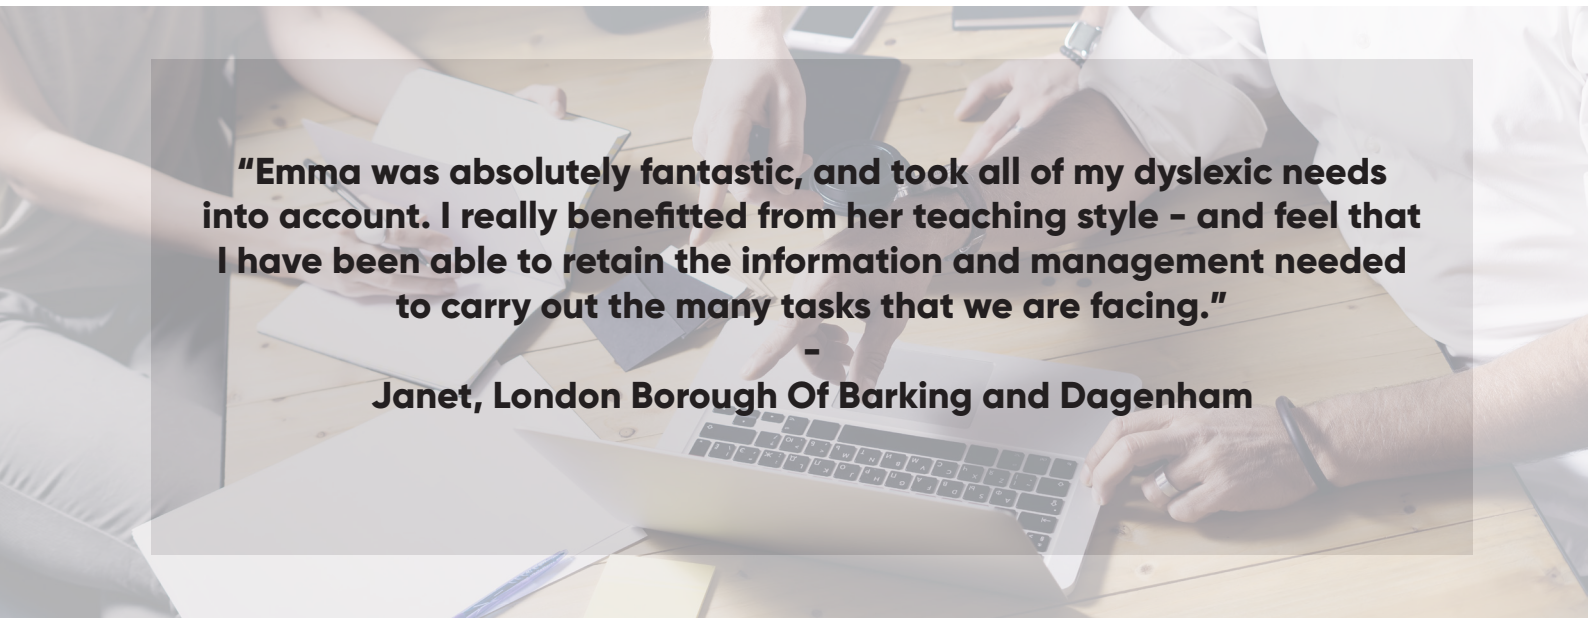

The training phase of system implementation projects is often subject to tight timescales and it can be difficult to identify how many external trainers you will require and when it is best to engage with them. We can take the hassle out of managing the development and delivery of your training sessions within a schedule that fits your project.

- Utilise our extensive experience to improve the efficiency of your project
- Accelerate the development of your bespoke courses using our catalogue of training documentation and lesson plans
- Remove the burden of recruiting and managing additional trainers

Me Learning can save you money

Training is essential to maintaining the integrity of your data and ensuring staff are using systems correctly yet budgets are being squeezed each year. We can help you deliver the training you need at the price you can afford.

- Affordable rates and discounts available
- Flexibility to change requirements throughout the project to minimise contractor costs
- Reduce your requirement for permanent trainers

"Emma was absolutely fantastic, and took all of my dyslexic needs into account. I really benefitted from her teaching style - and feel that I have been able to retain the information and management needed to carry out the many tasks that we are facing."

- Janet, London Borough Of Barking and Dagenham

Me Learning can help you achieve successful training outcomes

Classroom training commits a significant amount of time away from your staff's working day so it is critical that the sessions are worthwhile and relevant. We can help you define, monitor and achieve the training outcomes that are important to your organisation

- Support from an experienced training manager throughout the project lifecycle
- Courses developed to fit your unique system configuration and deliver your key messages
- Courses designed to engage learners, test understanding and build confidence
- Trainers hand-picked to represent the quality and reliability of the Me Learning brand

The background image is a blurred photograph of a classroom. In the foreground, the back of a person's head with curly hair is visible. Behind them, another person with curly hair is seated at a desk, looking at a computer monitor. Further back, a person in a blue shirt is also at a desk. The room has red walls and several computer monitors are visible on the desks.
