An eclectic community

We have always prided ourselves on our ability to create long-standing meaningful relationships with our communities in and around Canary Wharf.

Access our network

We're passionate about creating positive change through shared social purpose. Connecting our communities and customers in areas where we can make a difference.

From becoming the first commercial district to achieve a Plastic Free Communities status from the marine conservation charity, Surfers Against Sewage to our partnership with The Felix project, tackling food poverty by identifying and distributing surplus food – we provide our customers and businesses at Canary Wharf with access to our network and the opportunity to get involved.

Using key metrics we are measuring our social impact and always striving to achieve more.
