

2019 Practical Approach to Daylight PDT Course

Tuesday 18th June 2019
Photobiology Unit, Department of Dermatology, Ninewells Hospital,
DUNDEE, Scotland
CPD Application in Process

This course introduces daylight PDT, provides practical experience and discusses important issues such as clearance rates and side effects. It will be particularly useful for delegates who wish to start daylight PDT or for those already practising who would like to gain more experience. There will be a mixture of lectures and practical sessions where delegates will get to see every part of the treatment process, with patient involvement.

Course Directors: Prof Sally Ibbotson & Dr Ewan Eadie

Course Organiser/Administrator: Miss Stephanie Logan

Venue:	Photobiology Unit, Dermatology Department, Level 8, Ninewells Hospital, Dundee (post code for sat nav: DD2 1UB)
