- Quick service
- Quick & efficient
- Very friendly and helpful staff
- Waiting time not too long, exam thorough
- Fast triage
- Seen within 10 mins
- Being able to see doctor when GP lets you down
- Time
- Triage nurses & reception very efficient
- Pretty straight forward
- Fast service, very organised
- Very thoughtful, very swift, first part
- Doctor have more experience
- Always caring and professional
- Compassion
- Friendly staff who listen
- Waiting time not long to be assessed
- The Advanced Nurse Practitioner, Rebecca Lisseman (?), was great. I was really impressed with how thorough she was and that she listened to what I was saying. I am often reluctant to seek medical advice as I have often been made to feel like I am wasting the doctor's time, however I felt taken seriously by Rebecca, and that she believed what I was saying. This was a really positive experience compared to many previous experiences.

What would have made our service better?

- More caring and understanding doctor
- Less waiting time. Waited over 2hrs and notice said 1.30 hrs
- More doctors to follow up triage service
- Reduce waiting times 1-5 hrs
- Waiting times and doctors
- Having a Dr on call with handover
- Free parking facilities
- Second part waiting for doctor looked like they wanted to go home, moved so slowly
- Friendlier customer service
- Doctors listened more to patients instead of diagnosing anxiety for frequent attendees
- Reduce waiting time
- Opening hours extended.
- Serving tea & coffee
- A cup of tea lol
- Communicating to me that the patient forms are of the utmost importance to fill in first as I went to clean the sick off my son and had to stay with him as he was vomiting.
- Healthcare worker would be nice if they told you BP readings/temperature etc. And told you what they were doing, before going ahead and putting something in your ear.
- Badger having access to my medical records
- You should give a timed appointment as otherwise Badger clinic works just like a walk in centre
- Not having to wait so long
- Would be better to inform customers roughly how long the wait is
- Less waiting time
- Being seen quicker at least by health care assistant. Still waiting and it has been over an hour and 15 minutes
- The doctor was not caring and very rude. My young daughter has a very sore throat and the doctor stuck the stick in her mouth, a few times which caused her to gag. She kept the stick in whilst gagging telling her "not to do that". Ridiculous really as you can't help gagging
- Waiting area not very clean
- No water available in waiting area
- Nurse who did observations could have smiled
- More tests and diagnosis should be done on patients recurrent symptoms to rule things out
- You need more doctors not just one
- More equipment needed i.e. oxygen monitor.
- How is a mother on her own expected to write a patient form when their child is vomiting??
- Not happy generally- Also no locks on toilet door and hot drinks machine was also out of order
