Introduction

The out of hours contracts do not provide for Badger to carry out baby checks for newborn babies whether in hospital or at home and our doctors are not accredited to do them. This is part of maternity medical services which we do not provide. Those midwives not accredited to carry out the checks should contact whoever has been commissioned by the ICB to provide the service. This will be either the patient's own GP if they have agreed (they should have already given their contact details to the midwives as we do not provide message taking for GPs) or the hospital paediatric department.

Call Handlers

In the event of you receiving a call, advise the caller to call the midwife or advise the caller of the number of their local hospital maternity suite:
