Personalising your Audi Q7

This guide has been designed to help you tailor and price your Audi Q7 quickly and logically. At the back, you will find information on CO2 emissions-based taxation and the other services offered by Audi, including Finance and Insurance. You can also configure your Audi Q7 online at audi.co.uk
Vorsprung durch Technik

Three words that express the very essence of Audi. Vorsprung durch Technik isn’t a slogan. It’s our way of seeing the world. It is the driving force behind our history of innovation that continues into the 21st century. Indeed, many technologies that Audi pioneered remain in our cars today. Some are milestones in the history of the motorcar. From our beginnings in 1899, to the Auto Union team’s Grand Prix successes in the 1930s and our more recent wins at Le Mans, we have always been at the forefront of the motor industry.

Vorsprung durch Technik makes us who we are. To see more of its influence, just read on.

Please note the Audi Q7 featured in the images throughout this guide is in an Audi exclusive paint colour – Sepang blue, pearl effect.
Our largest SUV has undergone some big changes. Sharper horizontal lines. Striking quattro sideblades. A redesigned 3D-hexagonal single-frame grille. Double arrow-shaped daytime-running lights. And, for the first time in a Q model, optional Audi Matrix LED headlights. Every element adding to the Q7’s powerful, athletic appearance.

But while the all-new Q7 has gained many new features, it’s also lost weight – the equivalent of a grand piano. It’s more efficient, too, with CO2 emissions from just 153g/km. And with quattro all-wheel-drive, Audi drive select, and an enhanced 3.0 TDI 272PS engine, capable of 0-62mph in just 6.5 seconds, the result is a drive that’s incredibly agile and responsive.

Style, power and presence. All you could ask for in an SUV.
As well as MMI Navigation, the all-new Q7 comes with intelligent technology as standard to enhance your driving experience.

At a glance, the 8.3” retractable MMI screen displays everything you need to know, while the extra-large MMI touchpad makes it easier to ‘write’ your commands. Or, if you prefer, you can use the multi-function steering wheel and MMI button to control your car’s systems.

While driving, Audi drive select lets you electronically adjust the engine, transmission and steering to adapt to road conditions, with up to seven driving modes. For extra reassurance, Hill descent control pre-defines your speed during any descent. And Pre-sense city can automatically apply braking when a collision looks imminent.

You can also choose options to add even more convenience. Like the fully customisable Audi Virtual Cockpit that brings the information you want to the fore. Or Audi Phone Box and Audi Connect, that keep you and your passengers’ devices connected to the world.

Together, these technologies make any type of journey in the all-new Q7 a comfortable and confident one.

The Audi Q7’s cutting-edge Matrix LED headlights don’t just produce a light that is similar in colour to daylight. They also incorporate remarkable technology that adapts automatically to the car’s surroundings.

Sensors and an inbuilt camera allow the optional Matrix LED headlights to detect the rear and oncoming lights of other road users, as well as ambient light in built-up areas. The technology then reacts by dipping individual LEDs to prevent dazzle, while still fully illuminating the remainder of the road. Using the vehicle’s navigation data, Matrix LED technology can even anticipate corners, adjusting LEDs as you negotiate the bend. The result is a much wider visual range, benefitting both you and other road users. Dynamic sweeping indicators complete the striking look at the rear.
A heightened driving experience with ultimate control: it’s all thanks to quattro, which comes as standard on the Audi Q7.

quattro is Audi’s intuitive all-wheel-drive system. Constantly analysing grip and distributing power to where it’s needed most, the four permanently driven wheels deliver more responsive acceleration and assured grip on all surfaces.

And that’s especially true when road conditions change. If one wheel loses traction, quattro makes sure the others compensate to keep the car in control. Giving you a dynamic driving experience with superior handling – even in less-than-perfect driving conditions.
The all-new Q7 isn’t just powerful, it’s also a very comfortable place to be. A new wraparound interior envelops the driver in luxury. More headroom makes the whole cabin more spacious. And, on S line models, 4-zone climate control and privacy glass provide additional comfort for rear passengers. For families, six of the seven seats can be fitted with child seats, while the rear two seats can be folded electrically, at the touch of a button.

Sumptuous styling details complete the all-new Q7’s interior, with two-piece inlays, aluminium accents and subtle ambient lighting.

Comfortable. Spacious. Luxurious.
The information you need is always changing, so the Audi Virtual Cockpit changes too. Available as an option, it replaces the traditional dashboard with a high resolution, 12.3” LCD screen, which you can customise to display just the information you want.

So during ordinary driving, you’ll see virtual dials for speed and revs, along with information like the music you’re playing or any calls received. With the touch of a button, you can shrink the dials to show other functions, and even expand your navigation map to fill the display.

Our virtual dashboard puts everything you need to know right in front of you. With crisp 3D graphics and highly detailed effects, it’s the embodiment of Audi technological innovation.
Switch views at the touch of a button

The display can be switched between ‘classic’ view, with prominent speedometer and rev counter or ‘infotainment’ view, which brings functions such as the navigation map or media to the fore. Drivers can change their view simply by pressing the ‘view’ button on the multi-function steering wheel.

Image shows Audi Virtual Cockpit in infotainment view with optional Traffic sign recognition (available as part of the Dynamic pack)

Image shows Audi Virtual Cockpit in classic view with optional Night vision assistant
Online media streaming
Pairing a smartphone with the Audi Music stream app offers access to worldwide radio stations and music stored on the smartphone.

WiFi hotspot
Connects your mobile devices to the internet.

Email
Your emails can be transmitted to your Audi MMI and read out conveniently†.

Text messages
Messages are displayed or read out to you; you can also reply using the dictation function†.

Twitter
Enables you to tweet and receive updates on the move. With text-to-speech and other convenient text functions.

Weather information
Gives you forecasts and maps for your chosen destination.

Map update online
The map version delivered can be updated free of charge with the first 5 navigation updates which are issued at intervals of 6 months. In conjunction with Audi Connect, the update can be carried out online in the vehicle.

News online (individual)
Text and images from your favourite news sources with text-to-speech function.

City events
Up-to-date information about events happening at your destination.

Points of interest
Search Google™ using voice control.

Traffic information online
Complements the dynamic route guidance with real-time traffic flow information for individual stretches of road.

myAudi – special destinations
Import individual point-of-interest (POI) lists to your Satellite Navigation system via the myAudi portal.

Train information
Find departure and arrival times and platform information while you’re on the road (also available for other types of public transport such as underground systems).

Country specific information
The legal regulations for a specific country, such as speed limits or whether it is compulsory to carry a high-visibility vest or display a motorway toll sticker, are displayed when crossing a border.

Fuel prices
Information on filling stations with the cheapest prices in your selected search area.

Parking information
Helps you find car parks nearby and, where available, information on prices and currently vacant spaces.

Flight information
Get information about departure and arrival times as well as the corresponding gates and search directly for flight numbers.

Access smartphone voice control
Such as Siri (iPhone 4S and higher). By pressing and holding the voice control button on the multi-function leather steering wheel, you can access the voice control function of the Bluetooth-connected smartphone directly, even while driving.

Navigate with Google Earth™ and Google Street View™
Uses high-resolution aerial and satellite images as well as photos to guide you to your destination with ease.

Destination entry via myAudi or Google Maps™
Navigation destinations can be conveniently planned on your PC or smartphone, then sent to your car via myAudi and Google Maps™.
Being inside your car shouldn’t mean losing touch with the outside world. That’s why, with Audi Connect, the Audi Q7 creates a link between you and the internet. With high-speed, 4G internet access in your car, you can go online to access information, entertainment and Google Earth navigation maps by scrolling, tapping or speaking your commands. Audi Connect can even read aloud your text messages and allows you to dictate a response. And, with a wireless hotspot within the car, passengers can connect their mobile devices – to browse the internet, download emails, or access social media.

With Audi Connect, the world is at your fingertips. Experience it for yourself with our complimentary 3-month trial or purchase a 3-year subscription as an option.

Please note that an external data source is required to enable Audi Connect online services. Terms and conditions apply to certain Audi Connect functions. Please see page 77 for additional information. *Only available if your mobile phone has the Bluetooth profile MAP (Message Access Profile)
We've developed a whole range of innovations for your Audi Q7 to enhance every aspect of your car. Here are some of the standard and optional technology available.

**Advanced technology designed to help you on the road**

**MMI Navigation with MMI Touch**
With its 3D map display and high-resolution graphics, MMI Navigation makes it easy to get where you're going. Controlling the system is just as simple, thanks to MMI Touch technology. You just have to 'write' commands with your finger – or speak your destination using the voice control system – and your route is displayed on the central 8.3" retractable screen or additionally in the 7" Colour Driver's Information System. MMI Navigation with MMI Touch is standard on all Audi Q7 models.

**Bang & Olufsen 3D Advanced Sound System**
The advanced Bang & Olufsen sound system surrounds you with crystal-clear, ultra-realistic sound. All 23 speakers are arranged especially for the interior of the Audi Q7. Combined with acoustic lens technology, the music you hear in the all-new Audi Q7 is reproduced exactly as intended.

**Head-up display**
The head-up display projects important information directly into your field of vision, so you don't need to look away from the road. It shows details like the current speed limit, information from the assistance systems and instructions from the navigation system. All using a high-resolution 480 x 240 pixel display.

**Ambient Lighting Pack**
For better visibility when you're getting in and out, the ambient lighting system complements the Audi Q7’s standard interior lighting, illuminating the door sill plates, as well as the contours of the centre console. Available with three different colour profiles, you can change the mood in the cabin with a touch of the MMI button.
Innovative features for enhanced safety,

**Exit warning assist**
Looks out for traffic when you or your passengers open the door of the Audi Q7, monitoring the area around the car for metal objects that could pose a danger, like bikes and cars. If any are detected, it activates an LED warning light on the wing mirrors and the inside of the front and rear doors.

**Pre-sense – city**
A camera monitors the road ahead for cars suddenly stopping or pedestrians who are about to cross. If an imminent collision is detected, the system warns the driver and can initiate a maximum deceleration action to reduce the speed or, if possible, prevent the collision. Comes as standard on the Audi Q7 range. Please see page 28 for more details.

**Adaptive cruise control with Stop & Go and Traffic Jam assist**
Keeps a steady distance from the car ahead and maintains any speed you choose by automatically accelerating and braking. If traffic jam assist is also activated, the system uses the sensors and camera to detect any traffic jams ahead. When one is detected, the system won’t just continue to brake and accelerate in traffic, it can apply supportive steering to make your journey more comfortable.
assistance

efficiency and control

**Predictive efficiency assist**
Uses data from the navigation system to predict your route and suggest ways to drive more efficiently. It alerts you to speed limits, hidden bends and hills, so you can slow down in plenty of time. Predictive efficiency also works with Adaptive cruise control to adjust the car’s cornering if a bend or roundabout is detected and can help to reduce fuel consumption by up to 10%. Predictive efficiency assist is only available with the Dynamic package.

**All-wheel steering**
You use four wheels to drive your car, so why not use all four to steer it too? For more manoeuvrability at low speeds, the system steers the rear wheels in the opposite direction to the front wheels. At high speeds, both axles steer in the same direction for better cornering and enhanced stability. So you get more responsive steering and a more dynamic drive.

**Trailer assist**
Helps to manoeuvre and stabilise both the car and trailer while driving. And, when reversing, it automatically steers the trailer in the direction you choose using the MMI Touch dial. All you need to do is watch the road and operate the gears, accelerator and brake – and if at any point the trailer risks colliding with the car, the system warns you.

Vehicle driver assistance and safety systems are not a substitute for attentive driving. Drivers retain full responsibility for providing the necessary inputs for safe control of the vehicle. System descriptions within this brochure are provided for information purposes only. System limitations and operational requirements apply. See manual for details.
SE model equipment

All Q7 SE models have the following items of standard equipment

Engine and efficiency
Automatic Start-stop system with energy recovery
Recuperation – the kinetic energy produced from braking or coasting is converted into electrical energy and stored temporarily in the battery. When accelerating, this energy is used, relieving the load on the alternator and can result in a fuel saving of up to 3%

75-litre fuel tank

Wheels, tyres and suspension
19 x 8.5J ‘5-spoke star’ design alloy wheels with 255/55 R19 tyres
Audi drive select – features five modes (auto, comfort, dynamic, efficiency, and individual). These modes allow the driver to electronically adjust the engine, transmission and steering. Additional modes are available when Adaptive air suspension option is ordered (see Dynamic package on page 55 for further details)
Dynamic suspension
Tyre repair kit
Anti-theft wheel bolts
Tool kit and car jack

Lighting
Xenon Plus headlights with LED daytime running lights – with automatic headlight range control and adaptive light
LED rear lights
Headlight washers

Audio and communication
Colour Driver’s Information System (DIS) with 7” high resolution TFT screen. Shows information from the driver assistance systems, media in use, rest recommendation, telephone menu, outside temperature and MMI content
MMI Radio Plus and DAB
Audi Music Interface – universal connection for use with stereo audio sources, USB and MP3 devices including Apple iPod. The interface provides charging function (dependent on device)
Bluetooth interface – for hands-free mobile phone connectivity and Bluetooth audio streaming (depending on compatibility of mobile phone)
Audi Sound System:
- 6 channel amplifier
- 180 Watt amplifying capacity
- 10 loud speakers including subwoofer

MMI Navigation Plus (HDD) with MMI touch – includes:
- 8.3” central rising colour display with high-resolution graphics
- 3D map display of places of interest and city models
- Detailed route information, map preview, choice of alternative routes, POIs, lane recommendations, motorway exits and detailed junction maps
- MMI Touch – touch-sensitive control panel for quick, intuitive operation including handwriting recognition
- MMI search – free text search with intelligent destination suggestions during entry
- Vehicle support and speed limit display
- Map update service for downloading the latest navigation data (for further information please see page 77)
- Flash memory for music (10GB)
- Single DVD drive for music and video DVDs. Supports MP3, WMA, AAC and MPEG-4
- AUX-IN
- 2 x SDXC card readers
- 2 x USB sockets
Voice control system
Audi Connect (3-month trial) – convenient connection of your vehicle to the internet via an integrated data module with LTE/UMTS connection. For more information on Connect services please see pages 20 and 21. See terms and conditions on page 77.

**Exterior equipment**
- Full body-colour paint finish
- Exterior mirrors – electrically adjustable, heated and folding
- Aluminium roof rails
- Aluminium window trim
- Power-operated tailgate

**Interior equipment**
- Dual-zone electronic climate control
- 4-spoke leather multi-function steering wheel, with gear-shift paddles
- Front centre armrest
- Centre console contains two open cup holders
- Door sill trims with aluminium inlay
- Luggage compartment sill protection
- Cloth headlining
- Front and rear floor mats
- Inlays. Upper inlays in Diamond finish, silver grey and lower inlays in Anodised, anthracite
- Smoking package
- Interior lighting package includes front and rear reading lights, vanity mirror lights, footwell lighting, light in glove box, entrance lighting, lighting inside door handles, luggage compartment lights, exterior courtesy lighting on tailgate, contour door and dashboard lighting
- Auto-dimming rear-view mirror

**Seats**
- Standard seats in Twin leather upholstery
- Electric 4-way lumbar support for front seats
- Heated front seats
- Electrically adjustable front seats – including:
  - Forwards/backwards position
  - Seat height and angle
  - Seat cushion angle
  - Backrest angle

**7 seats**
- Second row includes:
  - Three seats, split-folding 35:30:35
  - Forward/backwards and backrest angle manual adjustment for additional comfort
  - Outer seats tilt and fold
  - Centre armrest with two cup holders
- Third row includes:
  - Two seats, electrically split-folding 50:50
  - Electrically-folding operated from boot or second seat row entry area
Assistance systems
Electromechanical parking brake
Light and rain sensor
Audi parking system plus (front and rear) – aids parking by acoustically and visually indicating distances to obstacles
Keyless Go – allows engine to be started by simply pressing the start/stop button in the centre console. The key just needs to be carried
Cruise control with speed limiter
Hill descent control supports the driver on steep descents with active brake applications. The vehicle is held at the predefined speed throughout the descent
Hill hold assist – holds the vehicle stationary for unlimited periods after stopping on uphill and downhill gradients

Audi Pre-sense city – the system uses the camera located on the front rear view mirror to detect vehicles and pedestrians in front. If an imminent collision is detected, the system warns the driver, tightens the belts and closes the windows. Subject to certain system limits, up to speeds of approximately 19mph the system may initiate emergency braking application and if possible prevent the collision. At speeds up to approximately 40mph the speed can be reduced up to 18mph to minimise the severity of the accident.
Vehicles, driver assistance and safety systems are not a substitute for attentive driving. Drivers retain full responsibility for providing the necessary inputs for safe control of the vehicle. System descriptions within this brochure are provided for information purposes only. System limitations and operational requirements apply. See manual for details.

Safety and security
ISOFIX child seat mounting – for all 6 passenger seats (with front passenger airbag deactivation). Includes Top Tether
Electronic Stabilisation Control (ESC), including ABS, ASR and EDL
First aid kit and warning triangle
Driver, front passenger, front side and curtain airbag system
Seat belt monitoring
Anti theft alarm
Tyre pressure loss indicator – visual and acoustic warning if the pressure drops in one or more tyres

Se model equipment
continued
Image shows the Q7 SE model with optional Ink blue, metallic paint (C7)
S line model equipment

In addition to SE model equipment

**Total RRP inc VAT**
£3,495.00

---

**Wheels, tyres and suspension**
20 x 9J ‘5-parallel-spoke’ design alloy wheels with 285/45 R20 tyres

**Lighting**
All-weather LED headlights – LEDs for all front lighting functions. LED technology provides lower energy consumption and enhanced contrast with a colour similar to daylight, for increased safety and recognition by other road users. Includes all-weather light function to reduce the risk of the driver being dazzled when visibility is poor (in fog, rain or snow)
Dynamic rear indicators – the rear indicators dynamically sweep from inside to out within 0.15 seconds. This helps to clearly identify not only that the vehicle is turning, but in which direction – increasing road safety as it is easier for other road users to determine which way cars are moving in a shorter amount of time
High-beam assist – automatically adjusts headlights from high-beam to dipped-beam when another vehicle is approaching

**Exterior equipment**
S line body styling comprising:
- S line bumpers, side ventilation grilles, side skirts and roof spoiler
- Platinum grey front spoiler lip and diffuser insert with honeycomb grid in black
- S line badges on front wings
Privacy glass – dark tinted rear and rear-side windows (from B-pillar backwards)

**Interior equipment**
4-zone electronic climate control – includes additional chrome strip across front air vent
S line 3-spoke leather-trimmed multi-function steering wheel, with gear shift paddles
Luggage compartment sill protection in stainless steel
Door sill trims with S line logo
Black cloth headlining
Inlays – upper inlays in Brushed aluminium sono and lower inlays in Chrome paint, slate grey
Adjustable front centre armrest

**Seats**
Front Sports seats
Leather/Alcantara upholstery with ‘S’ embossing in the front seat backrests

Inlays

Attention to detail can make a big impact. From contemporary black gloss to a natural walnut, our selection of inlays offers the perfect finishing touch to your car’s interior.
Inlays

Inlays are the all-important finishing touch that add flair and interest to your car’s interior.

The luxurious Q7 cabin features two complementing inlays on the dashboard, door trims and centre console.

Options

Every driver has different needs, which is why we have created some useful options to further enhance your car. For extra comfort, support, style or function, you can choose from a variety of additional features, tailoring everything from your infotainment and audio equipment to your wheels and lighting.
Wheels and tyres

Choose a set of specially selected alloy wheels to subtly enhance the way your car looks and drives.

Options are subject to availability and may extend delivery.

- 1G1: Collapsible spare wheel, maximum speed 50mph. Only in combination with deletion of third row seating (PE3)

### Suspension

**Adaptive air suspension** – electronically controlled air suspension with continuously adaptive damping system for all four wheels which regulates ride height and damping automatically. Additional allroad and lift/off-road modes can be selected via Audi drive select in the MMI system. In the allroad mode the ground clearance is increased by 25mm above the standard ride height and by 60mm in the lift/off-road mode. These additional modes also enable the tilt angle display feature in the MMI display which facilitates driving on uneven terrain, promotes the off-road characteristics of the vehicle, displays angle inclination and warns the driver of critical situations including roll-over risk. Adaptive air suspension increases trailer load capacity to 3,500kg and also includes loading level lowering (-55mm) via additional buttons in the luggage compartment to facilitate loading. This option is also available with the Dynamic Pack (WB1).

**Technology Pack:**
- **Audi Virtual cockpit** – 12.3” high resolution LCD display. The fully digital instrument cluster is customisable by the driver. All the functions and services are depicted using superb graphics with a 3D impression and detailed effects in brilliant clarity. The View function button on the multi-function steering wheel enables the display of the main instruments to be altered between two different sizes. See page 18-19 for more information.
- **Audi Connect (3-year subscription)** – Convenient connection of your vehicle to the internet via an integrated data module with LTE/UMTS connection. Highlights of Audi Connect services include navigation with Google Earth and Google Street View, destination input via myAudi or Google Maps, access to Google and Twitter, Wi-fi hotspot, weather and news online and travel information. Please note an external data source is required to enable Audi Connect Online Services. A separate data SIM card can be inserted in the SIM card reader. Please see pages 20 and 21 for full details. For terms and conditions see page 77.
- **Head-up display** – projects warnings or driving-related information from the assistance systems and navigation onto the windscreen into the driver’s direct field of vision using an optical system of mirrors. Helps to increase safety, convenience and driving pleasure. Display is adjustable in height.
- **Audi Phone Box** – enables drivers to use their mobile phone in the car by placing it in the storage compartment provided in the front centre console to create a wireless connection to the vehicle aerial, improving reception quality. Operated via the MMI control panel, the multi-function steering wheel or the voice control system. Two mobile phones can be connected to the system simultaneously. Wireless charging available (with compatible phones) or via USB port.
- **High beam assist** – automatically detects the headlights of incoming traffic, the rear lights of other road users and the lights of built-up areas. Depending on the traffic situation, the main beam is automatically switched on or off.

**Comfort Pack**
- Comfort front seats with front seat ventilation and headrests with multi adjustment
- Perforated Valcona leather upholstery
- Driver’s side memory function for the electrically adjustable front seats
- Electrically, adjustable, folding, heated, auto-dimming door mirrors with memory

See page 42 for more information on Comfort seats and Valcona leather.

---

**Dynamic Pack:**

- **Adaptive air suspension** – electronically controlled air suspension with continuously adaptive damping system for all four wheels which regulates ride height and damping automatically. Additional allroad and lift/off-road modes can be selected via Audi drive select in the MMI system. In the allroad mode the ground clearance is increased by 25mm above the standard ride height and by 60mm in the lift/off-road mode. These additional modes also enable the tilt angle display feature in the MMI display which facilitates driving on uneven terrain, promotes the off-road characteristics of the vehicle, displays angle inclination and warns the driver of critical situations including roll-over risk. Adaptive air suspension increases trailer load capacity to 3,500kg and also includes loading level lowering (-55mm) via additional buttons in the luggage compartment to facilitate loading.

- **Audi active lane assist** – the system detects lane boundary markings and helps the driver to stay in lane with gentle steering intervention for greater safety and convenience, particularly on motorways. Works at speeds above 37mph. Steering wheel vibration can also be set up when lane markings are crossed.

- **Adaptive Cruise Control (ACC) with Stop&Go and distance display/warning** – automatic distance regulation, using radar sensors to maintain the required distance between vehicles ahead by braking and accelerating. Works at speeds between 0 and 155mph.* Five programs (distance 1 to distance 5) can be set.

- **Traffic jam assist** – When activated and in conjunction with ACC the system uses the sensors and camera to detect vehicles ahead and on adjacent lanes. When a traffic jam is detected, the system will assist with the braking, acceleration and steering up to 37mph, making your journey a more comfortable one.

- **Traffic sign recognition** – detects traffic signs and displays these to the driver on the instrument cluster (or via the optional Audi Virtual Cockpit). These include speed limit signs, even temporary ones.

- **Predictive efficiency assist** – when activated, the system calculates a predictive route and uses route data including speed limits, traffic signs, road bends, junctions and roundabouts from the navigation data to give the driver efficiency advice in the instrument cluster (or via the optional Audi Virtual Cockpit) such as when to take your foot off the accelerator. Automatically activates engine coasting mode and Audi drive select efficiency mode. Can help reduce fuel consumption up to 19%. In conjunction with the Adaptive Cruise Control (ACC) the system uses the route data and speed limits to adjust the ACC desired speed and cornering accordingly.

- **Audi pre-sense front with collision avoidance assist and turn assist** – when the system detects the risk of a collision with the vehicle in front a visual and acoustic warning is given to the driver followed by partial braking, or at speeds under 19mph, the system may apply full braking. In addition, the system will calculate if an appropriate evasion lane is available and apply supportive steering to aid the driver. If a crash is sensed the airbags will be pre-conditioned and the braking system prepared to assist with the necessary braking force once the brake pedal is touched. When turning at crossroads, from the moment the turn indicators are activated the turn assist system detects approaching vehicles and applies braking to help avoid a collision.

Audi side assist including Pre-sense rear and exit warning
- Audi side assist – when activated the system aids the driver when changing lane. Audi side assist monitors the area behind your car, using radar sensors located discreetly in the rear bumper, informing the driver with a visual warning signal in the door mirror if there is a vehicle in their blind spot or approaching quickly from behind
- Exit warning – monitors the rear and side of your stationary Q7 and warns the occupants before they exit their vehicle that vehicles/cyclists are approaching from behind
- Audi Pre-sense basic and Pre-sense rear – if the system detects an unusual driving manoeuvre or potential rear-end collision, the system implements various measures to help protect the driver and passengers including electrical tightening of the seat belts in the front, automatic closure of windows and sunroof (if applicable). Upper backrest and headrest are adjusted automatically (where memory seats are fitted) to provide more protection. Furthermore auto-activation of the warning light alerts traffic behind to a hazard situation

Trailer Pack
- Assists the driver when reversing with a trailer. Includes electrically folding tow bar and trailer assist
  - Tow bar
    - Electrical folding ball hitch operated via buttons in the luggage compartment
    - Includes stabilisation via the Electronic Stability Programme (ESC)
    - Includes single 3-pin socket for use of electrical appliances in the trailer or caravan
  - Trailer assist
    - Supports the driver when reversing a vehicle with a trailer making manoeuvring easier
    - System is activated at the press of a button when reverse gear is engaged. The system analyses the trailer angles and path which is displayed on the MMI display. The driver can adjust the desired angle or desired path of travel via the rotary push-button control of the MMI system
    - On activation the system automatically steers the vehicle and trailer in the direction specified. Allows control of the vehicle and trailer without the use of a steering wheel. The driver only selects the gear, accelerates, brakes and monitors the driving. The system automatically brakes if the driver exceeds a defined speed or if a critical articulation angle is reached
    - The active assistant can prevent collision between vehicle and trailer
    - Compatible with all trailers with rigid drawbars

Please note – if ordered with adaptive air suspension (available as part of the Dynamic Pack) trailer load increases to 3,500kg

</tbody>
</table>

**High-beam assist.** Variable headlight range control featuring a camera on the interior mirror which registers sources of light from other road users. The range and width of the headlight beam are continuously varied between dipped and main beam to suit ambient conditions, ensuring that the headlights provide good visibility without dazzling other road users. Not available in combination with Audi Matrix LED headlights (PXC).

This option is also available as part of the Technology Pack (WB4) – see page 54 for details.

<table>

**All-weather LED headlights** – includes high-beam assist and dynamic rear indicators

- **All-weather LED headlights.** LEDs for all front lighting functions. LED technology provides lower energy consumption and enhanced contrast with a colour similar to daylight, for increased safety and good recognition by other road users. Includes all-weather light function to reduce the risk of the driver being dazzled when visibility is poor (in fog, rain or snow).

- **High-beam assist** – automatically adjusts headlights from high-beam to dipped-beam when another vehicle is approaching or when other ambient lighting is detected (e.g. streetlights) by a camera on the interior mirror.

- **Dynamic rear indicators** – with dynamic indicators which sweep from inside to out within 0.15 seconds. This helps to clearly identify not only that the vehicle is turning but in which direction – increasing road safety as it is easier for other road users to determine which way the vehicle is moving in a shorter amount of time.

Not available in combination with Audi Matrix LED headlights (PXC)

**Audi Matrix LED headlights** – A direct evolution of Audi’s LED headlights, Audi Matrix technology provides maximum and precise illumination at all times without dazzling other road users. The vehicle uses information obtained from multiple sources including the interior mirror camera and navigation system to identify the appropriate lighting required; using GPS data the vehicle will use high beam, but will automatically switch to dipped lighting when entering built up areas; whilst high-beam is in use, and oncoming traffic is detected, the Matrix beam dips or fully extinguishes individual LEDs. Matrix beam is capable of establishing and tracking multiple road users and illuminating the appropriate corridors of lights either side of them to maintain maximum visibility of the road and surrounding environment without causing disruption to other drivers. Matrix beam technology includes dynamic rear indicators which sweep from inside to out within 0.15 seconds. This helps to clearly identify not only that the vehicle is turning but in which direction – increasing road safety as it is easier for other road users to determine which way cars are moving in a shorter amount of time.

Looking after your Audi

When you’ve chosen your ideal model, it’s reassuring to know that it will remain in safe hands. That’s why we’ve created products to protect your Audi: from extended warranties to Audi Complete – our comprehensive service and maintenance package. And there’s also a range of Audi accessories and merchandise to choose from, enabling you to further enhance and safeguard your car.
Looking after your Audi
Audi Complete

If you drive under 10,000 miles per annum your vehicle will be placed on a Fixed Inspection Service schedule. If your mileage needs to exceed 10,000 miles per annum it will be placed on the Flexible Service schedule.

Warranty

All new Audi models now come with a choice of three, four or five-year warranty.* What’s more, if you decide to sell your Audi before the warranty expires, it will be fully transferred to the new owner. So, whichever length of warranty you choose, you can forget about unexpected repair bills and enjoy several years of carefree driving.

Audi Complete is our fixed-cost maintenance plan, which helps you keep your Audi in top condition and stay in control of your finances. For a simple monthly payment, you could cover your car’s servicing, maintenance and, if you want, its tyres too.

So not only will you ensure your car runs smoothly, you’ll also protect its future resale value. And because everything’s covered by one competitive price, there’s no need to go anywhere else.

Pricing is completely tailored to your vehicle and takes into consideration the options you have on your vehicle and your likely annual mileage and resultant service schedule. Please speak to your Audi Centre for a personalised quote for Audi Complete.

Options are subject to availability and may extend delivery.

Accessories

Choosing an Audi isn’t just a matter of deciding on the model you want — it’s about creating a car that perfectly suits your needs. And that’s why we’ve developed a whole range of accessories to enhance your Audi Q7, enabling you to customise it down to the last detail. Like your Audi, all these accessories are developed to the highest possible standards. And they’re all available exclusively from Audi.

So whether you are looking for mats or a loadliner, to find out more just visit audi.co.uk/accessories or contact your local Audi Centre.

Warranty

All the accessories available on the Audi Q7 are covered by a three-year warranty* if they are ordered and included in the purchase price of the car at date of delivery. Any accessories ordered and installed after delivery include a two-year warranty.*

*Excluding Road Angel products.

Audi Accessories warranty terms and conditions can be found at audi.co.uk
Merchandise

From the enthusiasts’ motorsport collection to the sophisticated Audi collection, there’s a wide variety of adults’ and children’s clothing, lifestyle accessories and collectables, all of which bear the Audi name.

Please speak to a member of our team at your local Audi Centre to see the full Audi collection and to place an order. A selection of Audi merchandise is also available to buy from audi.co.uk/merchandise

Looking after your Audi

The experts in Vorsprung durch Technik

Our Audi Approved Master Technicians have undergone an impressive 100,000 hours of training over a 10-year programme to ensure they have the latest technical expertise for maintaining and servicing your Audi. All our Service Advisors undergo a specialist induction and training to ensure they are Audi professionals and able to talk to you about any issues you may have with your Audi vehicle.

Servicing tailored to your needs

Regular servicing is key to safeguarding your Audi’s performance and a full Audi service history could help you enhance the future re-sale value. To make servicing easy, the Audi Service Schedules have been designed to work with your individual driving style and vehicle.

We offer two different schedules: the Fixed Inspection Service and the Flexible Service schedule. The conventional Fixed Inspection Service schedule has fixed intervals for the Oil-change Service and Inspection Service, which are determined by time and distance. With the Flexible Service schedule, the Inspection Service intervals are also fixed but the Oil-change Service intervals are variable. Sensors take account of driving style and conditions to determine when the Oil-change Service is required and the driver is informed via the on-board service interval display.

The choice of Service Schedule will depend on journey type and mileage as well as individual driving style and conditions. The table to the right can be used for guidance but your Audi Centre will help you to determine the most suitable Service schedule for you based on your individual circumstances and preferences.

Flexible Service Schedule

<table>
<thead>
<tr>
<th>Mileage</th>
<th>Service Intervals</th>
<th>Inspection Service</th>
</tr>
</thead>
<tbody>
<tr>
<td>More than 10,000 miles per annum, Motorway and main road driving, Mainly longer distance journeys, Constant speeds.</td>
<td>Fixed to every 19,000* miles/2 years</td>
<td>Fixed to every 19,000* miles/2 years</td>
</tr>
</tbody>
</table>

Fixed Inspection Service Schedule

<table>
<thead>
<tr>
<th>Mileage</th>
<th>Service Intervals</th>
<th>Inspection Service</th>
</tr>
</thead>
<tbody>
<tr>
<td>Less than 10,000 miles per annum, Mainly city/town centre driving, Short journeys.</td>
<td>Fixed to every 9,000† miles/1 year</td>
<td>Fixed to every 19,000† miles/2 years</td>
</tr>
</tbody>
</table>

When a vehicle is frequently used in the following conditions, we recommend a Fixed Inspection Service Schedule, regardless of mileage:

- Uneconomical driving styles, e.g. heavy acceleration and braking, constant use of high revs
- High engine-loading conditions, e.g. frequent towing and hill climbs

*As indicated by the service interval display. Mileages are approximate as the Service Indicator system uses kilometres as its distance measurement.

Your convenience comes first

At Audi you can choose from a range of convenient services that suit your needs. Why not book a ‘service while you wait’ appointment* and enjoy our complimentary refreshments while your car is with us? Or, if you need to be mobile, take advantage of one of our courtesy cars which we can even deliver to you.* We guarantee we can service your Audi within 5 days without a courtesy car or within 10 days if you need transport. We will also ensure your car is returned to you with a full valet.

Audi Genuine Parts

You can rest assured that only Audi Genuine Parts will be used on your vehicle. What’s more, Audi parts and labour come with a 2-year guarantee.**

No hidden costs

We believe strongly in transparency when it comes to our prices. For added peace of mind, we will give you a quotation over the phone for the work you have requested and email you the price confirmation. We’ll consult you if any additional work on your car is needed when it is with us. We won’t carry out any extra work without asking your permission first.

All part of the service

Whenever we see an Audi for a service, we connect it directly to our headquarters in Ingolstadt which enables us to check your car’s software and make sure it’s as up-to-date as possible. If the factory has released a software upgrade for your model, it can be applied immediately – improving anything from your car’s efficiency to the precision of its parking system.

Audi Roadside Assistance

Your new car comes complete with 3 years’ complimentary roadside assistance and recovery across the UK, provided by Automobile Association Insurance Services Limited. Also included is roadside assistance throughout Europe, managed by Automobile Association Insurance Services Limited.

For further information and terms and conditions please visit audi.co.uk

*Subject to availability.

**Excludes wear and tear.
**Audi Q7 technical data**

Depending upon your chosen Audi Q7 wheel size, different efficiency figures for CO2 emissions and fuel consumption will apply (based on EU directive no. 715/2007 effective from 01/09/14). This table is a quick reference guide to assist you in finding the correct values based on the wheel sizes and chosen engine.

*Highest insurance group rating shown. Group may be lower dependent on trim level. Please visit www.thatcham.org/abigrouprating for details.

**The trailer load figure for vehicles with adaptive air suspension (see dynamic pack).

*The addition of AdBlue technology ensures compliance with EU6 emission standards. The AdBlue tank may require refilling between services.

1 The given values were obtained in accordance with the specified measurement procedure (the respective current version of the Directive 80/1269/EEC).

2 Fuel consumption and CO2 emissions figures are obtained under standardised test conditions (Directive 93/116/EEC) using a representative model. This allows direct comparison between different models from different manufacturers, but may not represent the actual fuel consumption achieved in ‘real world’ driving conditions. More information is available at www.dft.gov.uk/vca

3 Vehicle’s unladen weight without driver (calculated in accordance with the current version of Directive 92/21/EEC). The fitting of additional equipment may increase the vehicle’s unladen weight and drag coefficient, whereupon the potential carrying capacity and top speed will be correspondingly reduced.

4 The engine’s power output always goes down with increasing altitude. At 1,000m above sea level, and for every additional 1,000m, deduct 10% from the weight of the outfit (trailer load limit + gross weight of the towing vehicle). Value applies to trailer load for factory-fitted trailer towing hitch.

**Please note:** The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of brake horsepower). To convert to brake horsepower, divide the PS figure by 1.0139.

Audi Q7 dimensions

The technical drawings opposite show the exact dimensions of the Audi Q7, so you can check everything – from whether the car will fit in your garage to whether your luggage will fit in the boot.

Dimensions in millimetres.

*Maximum headroom.
**Elbow room width.
***Shoulder room width.

Dimensions measured with vehicle at unladen weight, ground clearance measured with vehicle carrying its maximum load. Luggage load area in litres: 330/2035 (measured by the VDA standard test method using 200 x 100 x 50mm blocks. Second value is with the rear seat folded down and the vehicle loaded up to the roof height).

Turning circle approx 12m.

*With air suspension, in lift mode.
Welcome to Audi

By placing an order for your Audi, you’re choosing to get behind the wheel of one of the most sophisticated cars on the road. And because we believe the service we offer should be just as advanced, we want to let you know exactly what you can expect from us, now and in the future.

We’ve agreed a set of standards with all our Centres which governs the way we do business with you. It outlines the kind of service we promise to deliver for every customer, right down to filling each new Audi we sell with half a tank of fuel.

So whether you’re interested in the date your car will arrive in the UK or the way we’ll dispose of non-biodegradable materials after we service your Audi, you can have total confidence in us.

Audi Promise

Audi Centres

We guarantee that all our Centres will be open as follows:

Sales: Monday to Friday 9am–6pm
Saturday 9am–5pm

Service: Monday to Friday 8am–6pm
Saturday 8.30am–1pm
Sunday opening is at local discretion.

New car delivery

Once we’ve confirmed a delivery date for your car, we’ll keep you informed of progress. Subject to reasonable notice, we’ll then deliver it to a place of your choice, whether that’s your home or work. In the unlikely event of a delay, we’ll provide a courtesy car to minimise inconvenience and keep you mobile.

Environmental commitment

We promise to dispose of all non-biodegradable materials from your vehicle in a responsible manner.

Pricing

Prices and specifications given are correct at the time of printing. Always check details with your Audi Centre as Audi policies are continually developing. We reserve the right to change prices or specifications at any time.

Delivery charges and number plates are not included in the vehicle price.

Delivery charge £504.99
Number plate £20.00
VAT £105.01
Total £630.00

Audi Customer Care

Every new Audi benefits from the comprehensive Audi Customer Care Package, which comprises:

• A 3-year Audi warranty, which covers you for unlimited mileage in the first 2 years of ownership, with a full mechanical and electrical warranty which covers you for up to 60,000 miles in the 3rd year
• A 3-year paint warranty
• A 12-year anti-corrosion warranty
• 3 years’ UK roadside assistance and recovery

You also have the option when ordering your new car of choosing a 4-year or 5-year Audi warranty. Speak to a member of the sales team for more information.

Audi tax-free sales

If you are entitled to purchase a vehicle free of VAT, normally through military or diplomatic privilege, please contact your local Audi Centre for full details. Should you have any difficulty obtaining the information you require, please call 01908 548 356.

Audi Financial Services

Audi Financial Services specialises in providing funding solutions for Audi drivers. Whether your Audi is for private or business use, there is a range of funding options to choose from.

Below is the full range of finance products, which comprises:

• Solutions – a Personal Contract Plan
• Hire purchase
• Lease purchase
• Finance lease
• Contract hire

With all products, you can choose a fixed-cost maintenance plan designed to help you budget accurately.

No matter which Audi model you choose, your local Audi Centre can provide you with a personalised quote designed to fit your budget and motoring needs.

Audi Financial Services is a trading name of Volkswagen Financial Services (UK) Limited. An offer of finance depends on certain conditions. Available to people over 18 in the UK only.

Audi Insurance

We want you to start enjoying your new car from day one and thanks to Audi complimentary five day insurance you can. To activate simply call 0330 303 6900, provide us with a few details, and we’ll send a cover note to your Audi Centre. They will then tax your car and you can drive it away. Telephone lines are open Monday to Friday 8am – 8pm and Saturday 9am – 4pm. For details of our full range of Insurance products visit insurewithaudi.co.uk
**Additional information**

**CO₂ data and information**

CO₂ emissions-based Vehicle Excise Duty

Vehicle Excise Duty (Road Fund Licence) is based upon the amount of Carbon Dioxide (CO₂) a vehicle emits, measured in grams per kilometre (g/km). First year VED rates apply to the first year of ownership. Annual VED rates apply thereafter. The DVLA has created thirteen categories:

<table>
<thead>
<tr>
<th>Petrol and Diesel engines</th>
<th>First year</th>
<th>Annual rate (second year onwards)</th>
</tr>
</thead>
<tbody>
<tr>
<td>A – up to 100g/km</td>
<td>£0.00</td>
<td>£0.00</td>
</tr>
<tr>
<td>B – 101 to 110g/km</td>
<td>£0.00</td>
<td>£20.00</td>
</tr>
<tr>
<td>C – 111 to 120g/km</td>
<td>£0.00</td>
<td>£30.00</td>
</tr>
<tr>
<td>D – 121 to 130g/km</td>
<td>£0.00</td>
<td>£110.00</td>
</tr>
<tr>
<td>E – 131 to 140g/km</td>
<td>£130.00</td>
<td>£130.00</td>
</tr>
<tr>
<td>F – 141 to 150g/km</td>
<td>£145.00</td>
<td>£145.00</td>
</tr>
<tr>
<td>G – 151 to 165g/km</td>
<td>£180.00</td>
<td>£180.00</td>
</tr>
<tr>
<td>H – 166 to 175g/km</td>
<td>£295.00</td>
<td>£205.00</td>
</tr>
<tr>
<td>I – 176 to 185g/km</td>
<td>£350.00</td>
<td>£225.00</td>
</tr>
<tr>
<td>J – 186 to 200g/km</td>
<td>£490.00</td>
<td>£265.00</td>
</tr>
<tr>
<td>K – 201 to 225g/km</td>
<td>£640.00</td>
<td>£290.00</td>
</tr>
<tr>
<td>L – 226 to 255g/km</td>
<td>£870.00</td>

</tr>
<tr>
<td>M – over 255g/km</td>
<td>£1,100.00</td>
<td>£505.00</td>
</tr>
</tbody>
</table>

Vehicle Excise Duty (VED) rates correct at time of going to print, but these may alter to reflect any change in the applicable VED rate.

**Audi Connect**

In order to use Audi Connect you will require a separate SIM card with data option (which can be inserted into the included SIM card reader). If LTE usage is required the SIM card will also need a LTE option. When a separate SIM card is used, hands-free phone calls are possible by connecting a different mobile telephone via Bluetooth Hands Free Profile.

Online services will only be available within the coverage of the mobile phone network; there may be additional costs for the use of these services (charges and billing correspond to the personal mobile phone contract or SIM card contract). Due to high data volumes, a mobile phone contract including an unlimited or high usage data plan is strongly recommended. The content and scope of the online based services offered may vary.

The 3-month free use of Audi Connect is activated from vehicle delivery.

The 3-year subscription can be chosen in replacement of the 3-month trial, please see pages 54 & 59 for more information. The Audi Connect services provided from vehicle delivery are available for at least one year. After 24 months from delivery of the vehicle, the term of the Audi Connect services will be extended free of charge once for 12 months.

Audi Connect enables access to the services of Google and Twitter. Permanent availability cannot be guaranteed as this is the responsibility of Google and Twitter. Please note that the services received are also dependent on the capability of your mobile phone.

Google and the Google logo are registered trademarks of Google Inc.

The availability of services supported Audi Connect varies from country to country.

**Online Map updates**

The map version delivered can be updated with the first 5 updates which are issued at intervals of 6 months. The Current navigation data can be downloaded from the myAudi Platform at www.audi.com/myaudi and installed in the vehicle via SD card. In conjunction with Audi Connect, the update can be carried out online in the vehicle. In addition it is possible to have the new navigation data installed by an Audi partner at extra cost.
