WHAT IS PALIO BY KARNDEAN?

Palio by Karndean is luxury vinyl flooring available in three product ranges, Palio Clic, Palio Core and Palio LooseLay, offering quick and easy installation without the need for a specialist fitter.

QUICK AND EASY TO INSTALL

Using our loose lay and patented click-locking mechanism.

WATERPROOF

Won't swell, crack or warp when wet.

HIGHLY REALISTIC DESIGNS

Designed by Karndean's in-house product team to perfectly replicate real wood and stone.

SOFT, WARM AND QUIET UNDERFOOT

No cold tiles, no clicking shoes.

DURABLE

Won't warp or crack like real wood and stone. Lifetime guarantee.

HYGIENIC

Unlike carpets, our floors don't hold dust, dirt, pollen or other allergens.

LOW MAINTENANCE

Clean easily with a sweep and mop. No sanding, varnishing or staining.

COMPATIBLE WITH UNDERFLOOR HEATING

Up to 27°C.

What makes our floors different?

Palio by Karndean is luxury vinyl flooring. It's not like typical vinyl. It doesn't come in rolls or sheets, and it doesn't need to be glued down.

Instead, it comes in robust, pre-cut planks and tiles. Our highly realistic designs look just like the wood and stone materials they're inspired by.

But unlike a wood or stone floor Palio flooring is easy to install. All you need to do is simply click or lay it in place.

MONTIERI CP4504 | RCP6504

RANGE OVERVIEW

The Palio Clic range is quick and easy to install with a patented and familiar click-locking mechanism, and doesn't require adhesive.

PATENTED CLICK-LOCKING SYSTEM

NO NEED FOR ADHESIVE

Available in the same realistic wood and stone look designs as Palio Clic, Palio Core offers a rigid core LVT construction which provides more robustness on uneven subfloors and is our most acoustically friendly Palio product.

PATENTED CLICK-LOCKING SYSTEM

NO NEED FOR ADHESIVE

INSTALLS OVER MOST EXISTING HARD FLOORS

REDUCES IMPACT NOISE TRANSFER BY 19dB

NO UNDERLAY REQUIRED

Realistic wood and stone look designs, available in a loose lay format with a friction grip backing. If a plank or tile gets damaged, you can easily replace it without taking the whole floor up.

FRICITION GRIP BACKING

REDUCES IMPACT NOISE TRANSFER BY 13dB

CAN BE LAID IN ROOMS WITH 95% RELATIVE HUMIDITY

EASY TO REPLACE

NO EXPANSION GAP

PALIO CLIC

Palio Clic comes in a range of highly realistic wood and stone designs. It uses our patented click-locking system, so you can simply click the pre-cut planks and tiles into place. You won't even need adhesive.

PALIO CORE

Palio Core comes in the same range of designs as Palio Clic, but it combines our simple click-locking system with a rigid core construction which provides more robustness on uneven floors. And with its acoustic foam backing, it can reduce noise transfer by 19dB.

PALIO CLIC | PALIO CORE Installation guidelines

Please refer to palioflooring.com for the full installation instructions.

1. Using a knife and a straight edge measure the first plank to no smaller than the width of the plank.

2. Score the plank once and snap it so you have the desired length.

3. No need for adhesive, click and lock the planks into place.

4. Continue to fit the rest of the floor. Remember to leave a 5mm expansion gap.

PALIO LOOSELAY

Palio LooseLay comes in 14 different wood and stone designs. With its friction grip backing, it's easy to fit. It creates a strong bond with the subfloor using a calculated combination of weight and friction. And it's easy to repair. If a plank or tile gets damaged, you can quickly replace it without taking the whole floor up.

PALIO LOOSELAY Installation guidelines

Please refer to palioflooring.com for the full installation instructions.

1. Using a knife and a straight edge measure the first plank to no smaller than the width of the plank.

2. Score the plank once and snap it so you have the desired length. You may need to use a knife to fully separate the plank.

3. Using a knife, chamfer the edge to get a symmetrical sloping edge so the plank fits tightly against the wall or another plank.

4. Lay the planks loose, the friction grip backing will hold the product to the floor. A tackifier around the edge of the room is recommended.
