Any person making or intending to make an offer of the Certificates may only do so:

- (i) in those Non-exempt Offer Jurisdictions mentioned in Paragraph 9.6 of Part B below, provided such person is of a kind specified in that paragraph and that the offer is made during the Offer Period specified in that paragraph; or
- (ii) otherwise, in circumstances in which no obligation arises for the Issuer or the Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or to supplement a prospectus pursuant to Article 23 of the Regulation, in each case, in relation to such offer.

Neither the Issuer nor the Dealer has authorised, nor do they authorise, the making of any offer of Certificates in any other circumstances.

MIFID II product governance / Retail investors, professional investors and ECPs target market – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Certificates has led to the conclusion that: (i) the target market for the Certificates is eligible counterparties, professional clients and retail clients, each as defined in Directive 2014/65/EU (as amended, "**MiFID II**"); (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Certificates to retail clients are appropriate - investment advice, portfolio management, non-advised sales and pure execution services, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable. Any person subsequently offering, selling or recommending the Certificates (a "**distributor**") should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Certificates (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness

obligations under MiFID II, as applicable.

PART A - CONTRACTUAL TERMS

Terms used herein shall be deemed to be defined as such for the purposes of the General Conditions of the Certificates (and, together with the applicable Annex(es), the "**Conditions**") set forth in the Base Prospectus dated 1 July 2020, which constitutes a base prospectus for the purposes of the Prospectus Regulation (the "**Base Prospectus**"). This document constitutes the Final Terms of the Certificates described herein for the purposes of Article 8(4) of the Prospectus Regulation and must be read in conjunction with the Base Prospectus. Full information on the Issuer, the Guarantor and the offer of the Certificates is only available on the basis of the combination of these Final Terms and the Base Prospectus. An issue specific summary of the Certificates is annexed to these Final Terms. The Base Prospectus has been published on the websites of the Central Bank of Ireland (<http://www.centralbank.ie>).

The Certificates have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or under any state securities laws, and the Certificates may not at any time be offered, sold, transferred, pledged, delivered, redeemed, directly or indirectly, at any time within the United States or to, or for the account or benefit of, or by, any U.S. person (as defined in Regulation S under the Securities Act). Furthermore, the Certificates do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the U.S. Commodity Exchange Act, as amended (the "**CEA**"), and trading in the Certificates has not been approved by the U.S. Commodity Futures Trading Commission (the "**CFTC**") pursuant to the CEA, and no U.S. person may at any time trade or maintain a position in the Certificates. For a description of the restrictions on offers and sales of the Certificates, see "*Subscription and Sale*" in the Base Prospectus.

As used herein, "**U.S. person**" includes any "**U.S. person**" or person that is not a "**non-United States person**" as either such term may be defined in Regulation S or in regulations adopted under the CEA.

SECTION B - KEY INFORMATION ON THE ISSUER

Who is the Issuer of the securities?

The Certificates are issued by SmartETN with the guarantee of Cirdan.

SmartETN is a public company with limited liability, registered and incorporated under the Irish Companies Act 2014 (as amended) in Ireland on 13 November 2017, with registration number 615140. SmartETN’s registered office is at 31-32 Leeson Street Lower, Dublin 2, D02 KA62, Ireland. The legal entity identifier (“**Legal Entity Identifier**” or “**LEI**”) of SmartETN is: 635400OJ2ZKQXCZWGR42.

SmartETN has been established as a special purpose vehicle whose principal activities include, inter alia, issuing securities and raising or borrowing money, granting security over its assets for such purposes, lending with or without security and entering into derivative transactions.

The sole shareholder of SmartETN is Cirdan and SmartETN is a wholly-owned subsidiary of Cirdan. Cirdan and its subsidiaries (the “**Group**” or “**Cirdan Group**”) are financial institutions with strengths in asset management.

The Group Chief Executive Chairman and founder is Antonio De Negri.

The statutory auditors of the Issuer are Mazars Chartered Accountants and Registered Auditors of Block 3, Harcourt Centre, Harcourt Road, Dublin 2, Ireland who are chartered accountants and are members of the Institute of Chartered Accountants and registered auditors qualified to practise in Ireland.

What is the key financial information regarding the Issuer?

The following tables provide selected key financial information (within the meaning of Regulation 2019/979) of SmartETN for the financial years ended 31 January 2020 and 31 January 2019:

What are the key risks that are specific to the Issuer?

1. The Issuer is dependent on the Guarantor to make payments on the Certificates. The net proceeds from each issue of Certificates will be used to enter into offsetting financial transactions in such a way as to hedge the exposure of the Issuer to future promised returns of the Certificates issued to the minimum extent required. Should the offsetting financial transactions fail to deliver the promised returns of the Certificates, the Guarantor shall satisfy the financial obligations of the Issuer to the Certificateholders. Should the Guarantor fail to do so in a timely fashion, this will have a material adverse effect on the ability of the Issuer to fulfil its obligations under Certificates issued under the Programme.

By virtue of its ultimate dependence on the Guarantor, each of the risks described below and in the Base Prospectus that affect the Guarantor will also indirectly affect the Issuer.

2. Investors are subject to the credit risk of the Issuer and would suffer loss were the Issuer or Guarantor to fail to perform their obligations. Furthermore, the Issuer is not rated by any credit rating agency. In addition, the Issuer may issue a substantial amount of Certificates, representing an important financial commitment.
3. Risks relating to the Issuer entering into financial transactions to offset the promised returns of Certificates. The Issuer appoints Cirdan as its hedging advisor to propose hedging strategies to the Issuer for the purpose of meeting the Issuer's payment obligations under the Certificates. Should any hedging strategy fail to deliver the promised returns of the Certificates, an investor could lose up to 90 per cent. of its capital investment.
4. The outbreak of COVID-19 has (and in future could have) adverse impacts in economies of various nations where COVID-19 has arisen (and in future could arise) which could lead volatility in or disruption of the credit markets. This could have a material adverse impact on the ability of the Issuer to meet its obligations under the Certificates and result in significant liquidity problems with respect to the Certificates.
5. Certain considerations in relation to the forum upon insolvency of the Issuer. The Issuer is subject to risks relating to the location of its center of main interest, the appointment of examiners and the claims of preferred creditors under Irish law.

Most material risk factors pertaining to the Guarantor

1. Cirdan operates a monoline business structure and its business activities are dependent on the behaviour of the financial markets. There may be times where the unpredictable nature of the financial markets can affect the performances generated by Cirdan while managing assets, leading to losses for the investors and the consequent reduction in management and performance fees received by Cirdan.
2. The financial industry and the continuity of Cirdan's business is increasingly dependent on information technology systems, which may fail, may not be adequate for the tasks at hand or may no longer be available. Weaknesses or

failures in Cirdan's internal processes, systems and security could materially adversely affect its results of operations, financial condition or prospects, and could result in reputational damage.

3. Cirdan is subject to substantial regulation and regulatory and governmental oversight. Changes in the regulatory framework could have a material adverse effect on its business, results of operations and financial condition.

What are the key risks that are specific to the securities?

1. The market value of the Certificates will be affected by a number of factors, including, but not limited to (i) the value and volatility of the relevant Reference Item(s) and the creditworthiness of the issuers and obligors of any Reference Item(s), (ii) the value and volatility of any obligations to which payments on the Certificates may be linked, directly or indirectly, and the creditworthiness of the issuers or obligors in respect of any securities or other obligations to which payments on the Certificates may be linked, directly or indirectly, (iii) market perception, interest rates, yields and foreign exchange rates, (iv) the time remaining to the Maturity Date and (v) the nature and liquidity of the hedging agreements or any other derivative transaction entered into by the Issuer or embedded in the Certificates. Any price at which Certificates may be sold prior to the Maturity Date may be at a discount, which could be substantial, to the value at which the Certificates were acquired on the Issue Date.
2. Certificates may be redeemed prior to their scheduled maturity for reasons, such as the Issuer having to pay additional amounts in respect of any Certificates due to any withholding; the Issuer's obligations become unlawful, illegal or otherwise prohibited; the occurrence of an Event of Default or an early redemption event.
3. Claims of Holders under the Certificates are effectively junior to those of certain other creditors. Subject to statutory preferences, the Certificates and the Guarantee will rank equally with any of the Issuer's and the Guarantor's other unsecured and unsubordinated indebtedness. However, the Certificates and the Guarantee will be effectively subordinated to all of, respectively, the Issuer's and the Guarantor's secured indebtedness, to the extent of the value of the assets securing such indebtedness, and other preferential obligations under English law.
4. If the Issuer and the Guarantor are subject to insolvency proceeding, Investors may lose the original invested amount.
5. Risk Factors that are associated with Certificates that are linked to Reference Item(s). There are specific risks relating to Equity Linked Certificates. Potential investors should be aware that depending on the terms of the Certificates (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) the movements in the price of the share or depositary receipt or basket of shares and/or depositary receipts may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant price of the share or shares may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the price of the share(s) and/or depositary receipt(s), the greater the effect on yield.
6. There are risks relating to the Issuer conducting hedging transactions and the value of Certificates might in particular be affected by the liquidation of all or a portion of the relevant hedging positions.

SECTION D - KEY INFORMATION ON THE OFFER OF SECURITIES TO THE PUBLIC AND/OR THE ADMISSION TO TRADING ON A REGULATED MARKET

Under which conditions and timetable can I invest in this security?

The issue price of the Certificates is 1,000 EUR.

The Certificates will be fully subscribed by Cirdan acting a Dealer on 1 June 2021.

The Certificates will be admitted to trading on the EuroTLX as soon as possible after the Issue Date.

Estimated the total expenses of the offer is 10,000 EUR. No expenses will be charged to investors.

Who is the offeror and/or person asking for admission to trade?

The offeror is the Issuer.

Why is the Base Prospectus being produced?

Use and estimated net amount of the proceeds

We estimate the net amount of proceeds of the issue of the Certificates will be 3,000,000 EUR. The net amount of proceeds of the issue of the Certificates will be used to enter into offsetting financial transactions in such a way as to hedge the exposure of the Issuer to future promised returns of the Certificates issued to the minimum extent required.

Underwriting

Not applicable

Conflicts of interest

Cirdan acts in a number of capacities in respect of the Certificates, including as Guarantor, Calculation Agent and Dealer and its various roles and obligations in relation to the Certificates could lead to potential conflicts of interest in connection with any issue of Certificates which could have a negative impact on the Certificateholders. In Cirdan's role as Calculation Agent, it has broad discretionary powers which may not take into account the interests of the Certificateholders.

The Issuer, Cirdan and its affiliates may enter into transactions or arrangements in respect of the Certificates or on their own account or on account of their customers, and may take action under any such transactions or arrangements which may be adverse to the interests of the Certificateholders.

Quali sono i principali rischi specifici dell'Emittente?

1. L'Emittente dipende dal Garante nell'effettuare pagamenti sui Certificati. I proventi netti di ciascuna emissione di Certificati verranno utilizzati per effettuare transazioni finanziarie di compensazione in modo da coprire l'esposizione dell'Emittente ai rendimenti futuri promessi dei Certificati emessi nella misura minima richiesta. Se le transazioni finanziarie di compensazione non riuscissero a conseguire i rendimenti promessi dei Certificati, il Garante soddisferà gli obblighi finanziari dell'Emittente verso i Titolari del Certificato. Se il Garante non dovesse agire in modo tempestivo, ciò avrà un effetto negativo rilevante sulla capacità dell'Emittente di adempiere ai propri obblighi ai sensi dei Certificati emessi nell'ambito del Programma..

In virtù della sua dipendenza dal Garante, ciascuno dei rischi che interessano il Garante descritti di seguito e nel Prospetto Base influirà indirettamente anche sull'Emittente.

2. Gli investitori sono soggetti al rischio di credito dell'Emittente e subirebbero perdite qualora l'Emittente o il Garante non ottemperassero alle proprie obbligazioni. Inoltre, l'Emittente non è valutato da alcuna agenzia di rating del credito. Inoltre, l'Emittente può emettere un numero considerevole di Certificati, che rappresentano un importante impegno finanziario.
3. Rischi connessi alle transazioni finanziarie effettuate dall'Emittente per compensare i rendimenti promessi dei Certificati. L'Emittente nomina Cirdan come suo advisor di copertura per proporre strategie di copertura all'Emittente al fine di soddisfare gli obblighi di pagamento dell'Emittente ai sensi dei Certificati. Se una strategia di copertura non riesce a consegnare i rendimenti promessi dei certificati, un investitore potrebbe perdere fino al 90% del suo investimento di capitale.
4. L'epidemia COVID-19 ha (e in futuro potrebbe avere) impatti negativi nelle economie di varie nazioni colpite (e in futuro potrebbe colpire) che potrebbe determinare volatilità o perturbare i mercati del credito. Ciò potrebbe avere un impatto negativo rilevante sulla capacità dell'Emittente di adempiere ai propri obblighi ai sensi dei Certificati e comportare significativi problemi di liquidità rispetto ai Certificati.
5. Alcune considerazioni in relazione al forum in caso di insolvenza dell'Emittente. L'Emittente è soggetto a rischi relativi all'ubicazione del suo centro di interesse principale, alla nomina di esaminatori e ai crediti dei creditori privilegiati ai sensi della legge irlandese.

Principali fattori di rischio relativi al Garante

1. Cirdan gestisce una struttura commerciale monoline e le sue attività commerciali dipendono dal comportamento dei mercati finanziari. In alcuni casi la natura imprevedibile dei mercati finanziari può influire sulle prestazioni generate da Cirdan durante la gestione delle attività, con conseguenti perdite per gli investitori e la conseguente riduzione delle commissioni di gestione e performance ricevute da Cirdan.
2. Il settore finanziario e la continuità dell'attività di Cirdan dipendono sempre più dai sistemi di tecnologia dell'informazione, che potrebbero non funzionare, potrebbero non essere adeguati ai compiti da svolgere o potrebbero non essere più disponibili. Debolezze o guasti nei processi interni, nei sistemi e nella sicurezza di Cirdan potrebbero influenzare materialmente i suoi risultati di operazioni, condizioni finanziarie o prospettive e potrebbero causare danni alla reputazione.
3. Cirdan è soggetto a regolamentazione sostanziale e controllo regolamentare e governativo. I cambiamenti nel quadro normativo potrebbero avere effetti negativi rilevanti sulla sua attività, sui risultati delle operazioni e sulle condizioni finanziarie.

Quali sono i rischi chiave dei titoli?

1. Il valore di mercato dei Certificati sarà influenzato da una serie di fattori, tra cui, a titolo esemplificativo ma non esaustivo (i) il valore e la volatilità dei Sottostanti di Riferimento rilevanti e l'affidabilità creditizia degli emittenti e dei debitori di qualsiasi Sottostante di Riferimento, (ii) il valore e la volatilità di eventuali obbligazioni a cui i pagamenti dei Certificati possono essere collegati, direttamente o indirettamente, e l'affidabilità creditizia degli emittenti o dei debitori rispetto a qualsiasi titolo o altra obbligazione a cui i pagamenti sui Certificati possono essere collegati, direttamente o indirettamente, (iii) percezione del mercato, tassi di interesse, rendimenti e tassi di cambio, (iv) il tempo rimanente alla Data di Scadenza e (v) la natura e la liquidità dei contratti di copertura o qualsiasi altra operazione in derivati stipulato dall'Emittente o incorporato nei Certificati. Il prezzo a cui i certificati possono essere venduti prima della data di scadenza può essere scontato, il che potrebbe essere sostanziale, al valore al quale i certificati sono stati acquisiti alla data di emissione.
2. I certificati possono essere riscattati prima della loro scadenza per vari motivi, tra i quali l'Emittente che deve pagare importi aggiuntivi in relazione a qualsiasi Certificato a causa di eventuali trattenute; gli obblighi dell'Emittente diventano illeciti, illegali o altrimenti vietati; il verificarsi di un Evento di inadempienza o di un evento di rimborso anticipato.
3. I reclami dei Titolari dei Certificati sono effettivamente subordinati a quelli di certi creditori. Fatte salve le preferenze statutarie, i Certificati e la Garanzia si posizioneranno allo stesso livello di tutti gli altri debiti non garantiti e non subordinati dell'Emittente e del Garante. Tuttavia, i Certificati e la Garanzia saranno effettivamente subordinati a tutti, rispettivamente, l'indebitamento garantito dell'Emittente e del Garante, nella misura del valore delle attività che garantiscono tale indebitamento e ad altri obblighi preferenziali ai sensi della legge inglese.
4. Se l'Emittente e il Garante sono soggetti alla procedura di insolvenza, gli Investitori possono perdere l'importo originariamente investito.
5. I fattori di rischio associati ai certificati collegati ai Sottostanti di Riferimento. Esistono rischi specifici relativi agli Equity Linked Certificates. I potenziali investitori devono essere consapevoli del fatto che, a seconda delle condizioni dei Certificati (i), potrebbero non ricevere interessi o ricevere un importo limitato di interessi, (ii) il pagamento del capitale o degli interessi può avvenire in un momento diverso dal previsto e (iii) i movimenti del prezzo dell'azione o della ricevuta del deposito o del paniere di azioni e / o delle ricevute del depositario possono essere soggetti a fluttuazioni significative che potrebbero non essere correlate alle variazioni dei tassi di interesse, delle valute o di altri indici e alla tempistica delle variazioni del prezzo rilevante dell'azione o delle azioni possono influire sul rendimento effettivo per gli investitori, anche se il livello medio è coerente con le loro aspettative. In generale, prima è la variazione del prezzo delle azioni e / o delle ricevute di deposito, maggiore è l'effetto sul rendimento.
6. Vi sono rischi relativi a operazioni di copertura da parte dell'Emittente e il valore dei Certificati potrebbe essere influenzato in particolare dalla liquidazione di tutte o parte delle relative posizioni di copertura.

Conflitto di interessi

Cirdan agisce in relazione ai Certificati in qualità di Garante, Agente di Calcolo e Dealer e i suoi vari ruoli e obblighi in relazione ai Certificati potrebbero portare a potenziali conflitti di interesse in relazione a qualsiasi emissione di Certificati che potrebbero avere un impatto negativo sui detentori dei Certificati. Nel ruolo di Agente di Calcolo, Cirdan, ha ampi poteri discrezionali che potrebbero non tenere conto degli interessi dei detentori dei Certificati.

L'Emittente, Cirdan e le sue affiliate possono stipulare transazioni o accordi relativi ai Certificati per proprio conto o per conto dei propri clienti e possono agire in virtù di tali transazioni o accordi che potrebbero essere avversi agli interessi dei detentori dei Certificati.
