

# — UHC International Workshop —

Antwerp, October 15th-17th 2018

## LEARNING FOR UHC

### The transnational agenda

#### WHEN ?

The whole morning of day 2 **09:00 - 12:30**

#### HOW ?

In plenary (60+ participants)

#### OBJECTIVES

- (1) To share experiences and information.
- (2) To draw lessons.
- (3) To explore collaborations.

#### POSSIBLE OUTPUT

This is mainly a session to help those involved in a transnational program (including all CoP experts!) to reflect on their strategy; no specific output is currently foreseen.

#### SESSION 1

The session will be introduced by **Isidore Sieleunou**, on behalf of the CoPs. He will present our history, our success, our frustrations.

**Lara Gautier**, who is doing political science research on policy processes and performance based financing will present her study on the role of the PBF CoP in the dissemination of the strategy in Africa. **Maxime Rouve** will present lessons learned from the development of the Collectivity platform and ways forward. **Aurelie Klein** will share lessons from a user perspective (WHO).

We will then discuss with all the audience about future directions for the development of communities of practice, with a focus on their institutional needs.

#### SESSION 2

The objective of this session is to share experiences with a number of transnational initiatives. We will invite three organisations to share their experience.

**Jean Kagubare** will present the findings of the recent multicountry study *Learning for Action across health systems* and the forthcoming BMGF action plan for Africa. **Benjamin Rouffy** will present the *Health Systems Governance Collaborative*. **Anastasiah Kimeu** will present the *SPARC* programme.

We will then brainstorm with all the audience on possible strategies and challenges for transnational learning for UHC. Are we missing something? Should we adopt a common agenda? Be more proactive in terms of partnerships?

**General facilitation: Isidore Sieleunou, Bruno Meessen**
