Antwerp, October 15th-17th 2018

Performance Based Financing, Strategic Purchasing and Health System Strengthening: What alignment?

WHEN ?

The whole afternoon of day 1 (Monday 15th)

13:30 - 17:30

HOW ?

A plenary followed by a parallel session with some group work (30+ participants). The session will mainly be in English.

OBJECTIVES

- (1) To check whether we share a same vision.
- (2) To brainstorm on action points (to go beyond positive consensus among the believers).
- (3) To explore possible actions by groups like the PBF CoP and the FAHS CoP.

POSSIBLE OUTPUT

A concept note listing priority actions (to be developed in the follow-up of the conference).

PLENARY SESSION

The objectives of the session will be introduced by **Bruno Meessen**.

PARALLEL SESSION

Gyuri Fritsche will be invited to reflect on the journey done with PBF since Rwanda. **Elina Dale** will give the perspective of the WHO on PBF as entry point to strategic purchasing. **Jeffery Tanner** will present the perspective of the World Bank on PBF and health system strengthening. **Martin Sabignoso** will share lessons from the experience with Results Based Financing in Latin America & Caribbean Region.

We will then split in three subgroups (facilitators: **Julia Lohmann**, **Dimitri Renmans**, **Serge Mayaka**). Each subgroup will have to identify the 3 most positive contributions of PBF to HSS, the 3 most negative effects of PBF on health systems and the 3 opportunities which have been missed so far.

We will then reconvene in plenary to share results from group work. We will then focus our collective attention on the negative effects and the missed opportunities.

1. As a group, what could we do to help countries to (1) address these negative effects and (2) seize the missed opportunities?
2. What would be the priority action points for the CoPs?
3. Can we develop a partnership on this agenda?

General facilitation: **Serge Mayaka** and **Bruno Meessen**
