

Sheaf Valley Cycle Route: Cherry Street

FOOTBALL
GROUND

SHOREHAM STREET

A new parking bay would be added here providing three parking spaces for permit holders only.

Cherry Street would be closed to motor vehicles at the junction with Shoreham Street using planters and removable bollards. This closure would reduce traffic flow on Shoreham Street making it suitable as a cycle route. The measures would be temporary to test how they work and the bollards would be removed on match days to enable coach access to the football ground.

CHERRY STREET

An additional space would be added to the existing permit holder only parking bay here.

Key

- Planters
- Removable bollards
