Change Commonplace to your preferred language

Translate ***web page*** in Chrome

1. On your computer, open **Chrome** browser.
2. Click on the **3 dots** at the top right corner of your Chrome browser
3. Select **Settings**
4. Click on the **Advanced** drop down list on the left hand side of the screen
5. Select **Languages**
6. Click on **Add Language**
7. Select your language from the **list of languages** or type in your language in the **search bar** within this window. *Once you've done this go to **web page**.*
8. Right-click on web page and click **Translate to [language]**

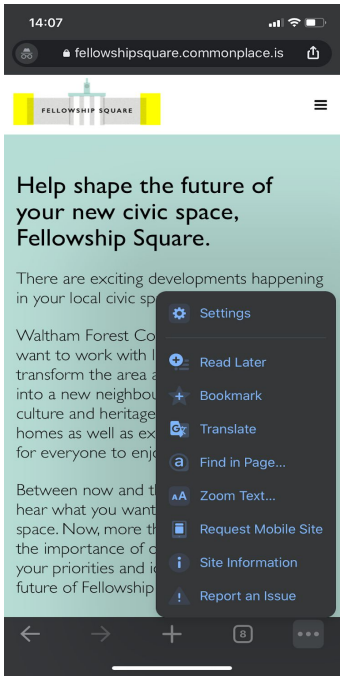

9. You'll also see the Google Translate icon in the web address field

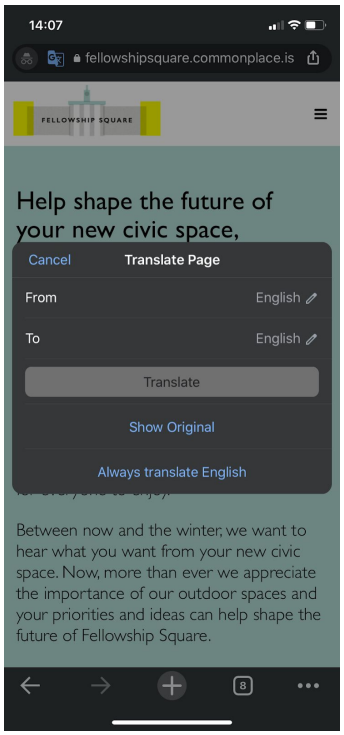

Once you've done this, you'll see all web pages translated.

Translate ***web page*** in Chrome (Mobile)

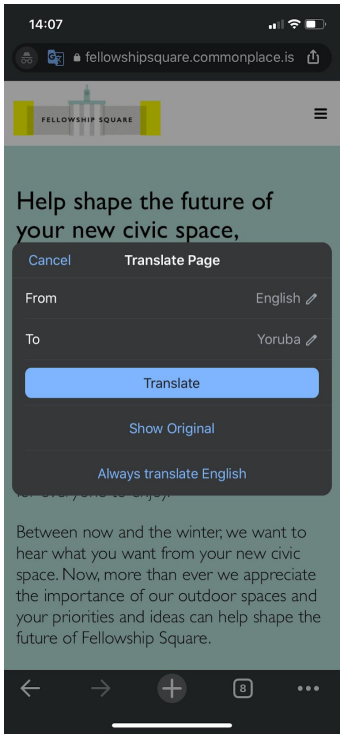

1. Open **Chrome** on your mobile device
2. Visit the Commonplace website
3. Tap on the 3 dots at the bottom right hand corner of the tab

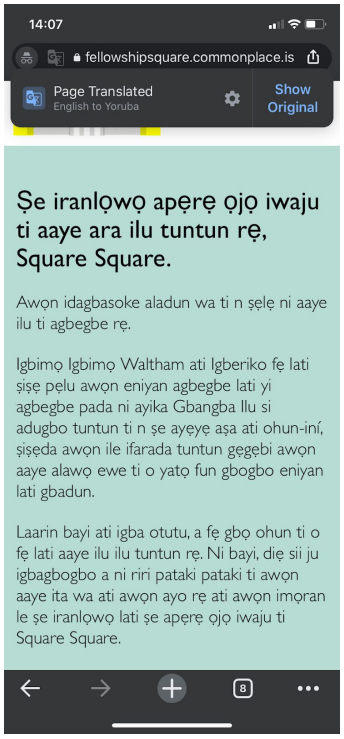

4. Scroll down and tap on **Translate** (the symbol will show in the URL field on the left - **tap on it**)
5. Tap **English** in the **To** box

6. Select the language you want to translate the Commonplace website to
7. Once you've selected your language, tap the **Translate button** in blue

8. The Commonplace website will now show in your desired language

If you want to change language back to English, click Show Original button just under the URL field
