

# Notice of utility diversion works

March 2020 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain. We wrote to you recently about our enabling works in the area and following these initial activities, SGN will start their utility diversion works in March, this will allow for the future construction of HS2.

## What are we doing

We are currently undertaking vegetation clearance works, once they are complete, SGN will be diverting the existing high-pressure gas pipeline in the Quainton area. This will involve installation of the pipeline diversion to the south of the existing line, pressure testing and tie-in to the existing pipeline without impact to the gas network.

There will be two site access points, one will be on Station Road and the other on Quainton Road. These are labelled on the map within this notification. Plant crossing points will also be installed across Station Road and Quainton Road.

## How will this affect you?

You may notice extra traffic on the roads due to our workforce and equipment movements in the area.

In the fields where are working, you may notice equipment, such as excavators, pipe layers and other plant equipment.

Work will begin in March 2020 and be completed in November 2020. Working hours will be

Monday – Friday  
8am – 6pm

Saturday  
8am -1pm

We may be on site an hour either side of these times for a quiet set up of the works ahead.
