# Notice of utility works in the Euston west area during March-June

March 2020 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain. We are continuing preparatory works for HS2 in your area, this includes utility works in the area west of Euston station. This notice covers works which will be carried out between March and June. The dates are indicative and may change as the works progress.

## Euston Street

Until early April we are carrying out works on the south side of Euston Street to install communication ducts and electrical power connections. Following feedback from local communities and Camden Council regarding providing better access for businesses and residents, from 28 February the one-way traffic on Cobourg Street South and Euston Street towards North Gower Street was reversed. Traffic now flows from North Gower Street to Euston Street eastbound towards Euston Station.

From **early April** to **early June** we will carry out sewer relining works in the carriageway of Euston Street. The road between Regnant buildings and North Gower Street will be closed during these works, footways will remain open.

## North Gower Street

We are currently carrying out works for communication ducts and electrical power connections on North Gower Street between Drummond Street and Euston Street until mid-April. The road is closed, footways on both side of the road remain open.

From **early April** to the **end of June** the works will continue in the section between Euston Street and Stephenson Way. The road will be closed in stages to maintain access to Tolmers Square and footways will remain open on both sides of the road.

Due to some preparatory works for utility diversion works we will need to close access to North Gower Street from Euston Road for one weekend between April and June. Traffic management and diversion signs will be in place.

**If you have a question about HS2 or our works, please contact our helpdesk on 08081 434 434 or email [HS2enquiries@hs2.org.uk](mailto:HS2enquiries@hs2.org.uk)**

## Stephenson Way

The realigning of the Thames Water main in Stephenson Way will continue until September. A section of the road at the end furthest from North Gower Street will be closed to vehicles.

During the works Thames Water will need to carry out testing works and interrupt the water supply for short period. We will provide further information to the buildings directly affected.

## Gower Street

We are carrying out works for communication ducts and electrical power connections in the Gower Street northbound carriage way in the junction with Euston Road until the end of March. The bus stop W is suspended for the period of this works.

From **end-March** to **mid-May** works will be carried out in the southbound carriage way between the junction with Euston Road and Gower Place. The footway will remain open.

From July we will carry further works on Gower Place and will need to close the road for approximately three months.

At each location parking bays will be suspended. Pedestrian access will be maintained during the works.

The initial digging/breaking out of the road will be the noisiest activity, although this will be intermittent and not continuous. We will erect screening clad with acoustic panels to reduce noise.

Utility supplies and other services will not be affected by these works.

The above dates and site layouts may change, as works progress. We will continue to notify of further works in the area in due course
