

**Dear Customer**

**Duct Installation Works in West Ruislip Golf Course**

We run the electricity network delivering power in London, the South East and East of England and connect and move power cables. We have completed preparatory works on behalf of HS2 for our proposed new connection to the electricity network between Harrow and West Ruislip. The overall route will run between Harrow North Grid and West Ruislip Portal.

Duct installation works at West Ruislip Golf Course, off Ickenham Road is planned to commence on Saturday 30th November 2019 for a duration of approximately 4 weeks, with works planned Monday through to Sunday. This is to facilitate the duct installation between North Harrow and West Ruislip Golf Course for the Tunnel Boring Machine. We will be excavating and reinstating a trench to install our cable ducts for a length of approximately 300m. Works which are deemed noisy will be carried out between 8.00am – 6.00pm Monday to Friday and 8.00am – 12.00pm Saturday. Works in the highway are due to start in 2020.

This work will not have any impact on your electricity supply.

If you would like any more information please do not hesitate to contact Valeria Colebrooke on 07827 239086. Additionally, you can contact our customer care team on **0800 028 4587** or [care@ukpowernetworks.co.uk](mailto:care@ukpowernetworks.co.uk).

You can find out more about the tunnel boring machine power supply route by visiting [www.hs2inhillington.co.uk](http://www.hs2inhillington.co.uk).

Yours Sincerely

Golda McNamee  
UK Power Networks Project Manager
