

## Notice of pipeline diversion works between M6 and M42, south of Birmingham Road

February 2020 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain. Cadent will be moving underground gas pipelines in the Coleshill area, to allow for the construction of the new railway and to continue to ensure a safe and reliable gas supply.

We will be starting work to move one of the pipelines on land south of Birmingham road in March 2020. We expect this work to be completed by the end of 2020.

### What are we doing?

We have finished clearance activities and will be starting site set-up and main work to move the pipeline in March 2020.

The work will involve:

- Setting up a temporary works compound on land south of Birmingham Road, with a site office and carpark
- Installing fencing around our working area
- Digging a trench for the new pipeline route
- Welding the pipe together then installing it in the trench
- Connecting and testing the new pipe

There will be 24-hour security on site so we can maintain a safe working environment. Please note, there will be no on-site lodging.

### How will this affect you?

Construction vehicles will use the new access off Birmingham Road. We will put signs in place to make other road users aware of this.

Standard construction vehicles and equipment will be used, and all work will take place inside usual working hours. There will not be any disruption to your utilities during our works.

We will keep local people up to date as our work progresses.

## About our Community and Business Funds

We are offering two funds that are available to local communities and businesses between Birmingham and the West Midlands, to help with the disruption caused by our construction work. These are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF).

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities are able to apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.

For more information about each of these funds, including how to apply, please visit: <https://www.groundwork.org.uk/hs2funds>
