

ECHOSPACE CALCULATOR

ECHOSPACE CALCULATOR

Hi...

We have created a tool that will help you to redefine the spatial needs of your workplace. The way we work has changed, our thinking about the workplace also needs to adapt to these changes. Square footage = £££
So,
How much space does your business really need to perform optimally?
What types of spaces do you want to see in your new office?
How many people need a fixed desk, vs hot desk, vs home desk?

Once you've captured your brief. Just simply click the **Submit Button** below. We'll be able to give you an accurate square footage, and if you'd like, we can arrange a call to talk through your ideas.

Missing Something?

If you have any thoughts for spaces that we haven't included, pop them in a box below.

*Remote Working

FULL TIME

These peeps might come into the office a few times a week and need a space to do their work.

These peeps are full time remote workers and might come into the office for meetings.
